AN EQUAL OPPORTUNITY UNIVERSITY

La Salle University does not discriminate against any applicant because of race, color, creed, sex, age, physical handicap, or national origin. Admission is based upon an applicant's qualifications and ability to meet the established requirements for admission and for specific programs.

ACCREDITATION AND MEMBERSHIPS

La Salle University was chartered in 1863 by the Legislature of the Commonwealth of Pennsylvania and is empowered by that authority to grant academic degrees. It is accredited with the Middle States Association of Colleges and Secondary Schools, the Pennsylvania Department of Education, the Regents of the University of the State of New York, the American Chemical Society, the Pennsylvania State Board of Law Examiners and the Council on Social Work Education.

Member of: American Council on Education, Association of American Colleges, Association of College and University Housing Officers, College Entrance Examination Board, American Association of Collegiate Registrars and Admissions Officers, Association of College Admissions Counselors, National Catholic Educational Association, College and University Council of Pennsylvania, Association of Liberal Arts Colleges of Pennsylvania for the Advancement of Teaching, Pennsylvania Catholic Education Association, American Library Association, National Commission on Accrediting, American Catholic Historical Society, Educational Conference of the Brothers of the Christian Schools, National Association for Foreign Student Affairs, and National Association of Student Personnel Administrators.

RIGHTS AND PRIVACY ACT PROVISIONS

Each year, La Salle University informs students of the Family Educational Rights and Privacy Act of 1974. This Act was intended to protect the privacy of educational records, to establish the right of students to inspect and review their educational records, and to provide guidelines for the correction of inaccurate or misleading data through informal or formal hearings.

To fulfill basic requirements for compliance with the Act, each institution must inform each student of his/her right to prevent disclosure of personally identifiable information. Although La Salle does not publish a public directory, the Office of the Registrar, at its discretion, does disclose the following information: Name, address, dates of attendance, class, major field of study, and degree(s) conferred (including dates).

Under the provisions of the Rights and Privacy Act, currently enrolled students may withhold disclosure of such information. To prevent disclosure, written notification must be received by the Office of the Registrar by October 1st in the Fall Semester and February 15th in the Spring Semester. The University will honor each request to withhold any of the categories of information listed above but cannot assume responsibility to contact a student for subsequent permission to release them. Decisions about withholding any information should be made very carefully. Should a student decide to inform the institution not to release any information, any future requests for such information from non-institutional persons or organizations will be refused.

La Salle University assumes that failure to request the withholding of "directory information" indicates approval for disclosure.

A Profile

To Introduce Ourselves . . .

In this short profile, we'd like to tell you a few important details about La Salle, one of Pennsylvania's oldest colleges and newest universities. Founded in 1863, La Salle College became La Salle University in 1984. We hope these facts will help you to get to know us better and to share our pride in more than a century of educational excellence.

La Salle is one of two institutions of higher education in the East conducted by the Christian Brothers (the other being Manhattan College). The Brothers were founded by St. John Baptist de La Salle in the 17th century. For more than 300 years, the order has been known for dedicated teaching and devotion to students. The spirit of the order carries over to the faculty and administration of La Salle University where diverse backgrounds unite to carry out the objectives of the University in an atmosphere of respect for the individual.

5

We think La Salle is big enough for efficiency, yet small enough to stimulate personal contacts between students and teachers. The day division enrolls 3200 men and women. The average class size is 20 students; there are no lecture sections numbered in the hundreds and no graduate assistants handling basic courses or marking papers for professors who do not know their own students. Yet the University is large enough to offer 30 different degree programs or special concentrations.

La Salle is located in the northwestern section of Philadelphia on the edge of Germantown, site of a Revolutionary War battle, and one of the oldest neighborhoods in Philadelphia. The campus covers over 85 acres and includes Belfield, a farm that once belonged to the American painter, Charles Willson Peale. Entering the campus from one of the busy city streets around it has been described by one visitor as "entering a place of quiet beauty. It's hard to believe you're in a large city." But Philadelphia is a large city, filled with interesting people, places and events. The University is less than half an hour from center city's museums, concert halls, restaurants, sporting events, and shopping. The school is only two hours away from Pocono Mountain ski resorts or the boardwalks and beaches of the Jersey shore.

6

Pulitzer Prize-winning playwright Charles Fuller began his career as a writer while still an Evening Division student at La Salle. His screenplay for "A Soldier's Story" won an Academy Award nomination.

Philadelphia Stock Exchange president Nicholas Giordano is one of many business leaders who graduated from La Salle University.

Dennis Cunningham, CBS-TV's drama critic in New York, is both an alumnus and a former member of the English department faculty.

How good is La Salle academically? A good academic institution has a talented faculty, good students, and a solid library. A glance at the faculty directory at the end of this catalog will demonstrate the sound academic credentials of the La Salle faculty; what it does not show is the dedication to teaching and to students that is the greatest strength of the faculty. About 70% of last year's freshmen graduated in the top 40% of their high school class, but the statistics don't show the many students who entered La Salle with less-than-superb high school records and matured and blossomed in the atmosphere of this University. The library has over 286,000 volumes, carefully selected to meet the needs of our students; planning for a new library to house the growing collection is well underway. La Salle is academically sound but not academically smug. A University-wide self-study currently seeks out ways in which we can continue to improve.

Another measure of La Salle's academic standing: how many of our graduates went on to earn Ph.D.'s? In a study of 200 top liberal arts institutions, La Salle ranked in the top 21% as originating school for doctorates in the arts and humanities and in the upper 30% overall.

7

What do the Dean of Villanova University Law School, the Dean of the Medical School at the University of Pennsylvania, the president of the Philadelphia Stock Exchange, a Pulitzer Prize-winning author and Academy Award nominee for *A Soldier's Story*, the drama critic for CBS, and the Chief of Staff at Massachusetts General Hospital have in common? You guessed it: a La Salle education.

La Salle graduates have distinguished themselves in the nation's best graduate schools, law schools, and medical schools. In recent years, graduates have won scholarships or assistantships to top-rated graduate schools, including Harvard, Cornell, Stanford, University of Chicago, and Virginia. La Salle men and women have earned law degrees from Berkeley, Catholic University, Cornell, Dickinson, Pennsylvania, Temple, and Villanova, to name but a sampling.

8

The women's varsity basketball team in action on one of Hayman Hall's three courts.

A quiet moment with the harpsichord in the art museum's Renaissance room.

Since 1977, according to a 1984 study, 99% of students who were highly recommended by La Salle were offered entry into medical schools, including Jefferson, Hahnemann, Temple, and Medical College of Pennsylvania. La Salle graduates have won 27 Fulbright Scholarships, a Marshall Scholarship, and four Rotary International Gundacker Fellowships for Study Abroad. Since 1965, each graduating class has averaged about 40 graduate and professional school fellowships, scholarships, and assistantships.

Many of these graduates participated in the exceptional Honors Program at La Salle. The *Newsletter* of the National Collegiate Honors Council described the program as "a very special sort not available to larger, general universities" and took note of a "really extraordinary record in terms of garnering Fulbright, Danforth, and Marshall scholarships."

9

Financial aid is a mysterious but necessary concern for most parents. Without it, most students could not attend college today. At La Salle approximately 85% of the students receive some form of financial aid. Here's something to keep in mind: since aid is calculated on a "needs" formula, a student attending a private college may actually be eligible for more aid than would be available if he or she were attending a public or community college with an apparently lower tuition.

Besides partaking of the Philadelphia cultural scene, La Salle also contributes to it in significant ways. Lita Solis-Cohen, Philadelphia *Inquirer* art and antiques columnist, has written that La Salle has "the finest college art gallery in the Philadelphia area" and that "one would have to go to Yale, Harvard, or Princeton to find a better one." The summer Music Theatre, a Philadelphia institution now, has launched many performers' careers, including actors Pat Cronin, Russell Lieb, and dancer Judith Jamison. Over the years, La Salle has welcomed to the campus as speakers a distinguished array of names, including John F. Kennedy, Katherine Anne Porter, Ralph Ellison, Robert Penn Warren, and many others. La Salle and the University of Pennsylvania are the only two Philadelphia-area institutions to bring the Royal Shakespeare Company's Actors-in-Residence program to their students and the community.

Sports devotees generally think of basketball when they hear the name La Salle, and not without reason. La Salle is one of only nine teams to have won *both* the NCAA and NIT championships in men's basketball. But basketball is only part of the story. The women's field hockey team won a national title in 1980; its goalie, Diane Moyer, was a part of the 1984 Olympic championship team. Among other past Olympic participants from La Salle are gold medalist swimmer Joe Verdeur, long jumper Ira Davis, and javelin thrower Al Cantello.

Hayman Hall, one of the East's finer athletic facilities, features an Olympic-sized pool, basketball, squash and handball courts, an indoor track, an exercise room, and virtually anything else an athletically-minded student might want. Organized intercollegiate and intramural sports afford students opportunities to participate according to their interests, but there is plenty of unorganized, free recreation as well. There are men's varsity teams in basketball, baseball, swimming, track, cross country, crew, soccer, golf, rifle, tennis, and wrestling. Women's teams include basketball, crew, cross country, field hockey, volleyball, tennis, swimming, softball, and track. Intramural sports such as touch football, volleyball, basketball, softball, track, swimming, and water polo have men's, women's, and mixed teams.

11

For those with recreational tastes other than or in addition to athletics, the La Salle Union offers films, plays, and concerts in its theater, social events in the ballroom, or a meal or a snack in one of its three dining rooms. Trained administrators in Student Affairs work closely with students and their organizations, sharing ideas and helping students to plan and carry out social and cocurricular activities. They recognize that social life is a vital part of your educational experience at the University, and they will work with you to help you get the most out of your student activities.

Our profile of La Salle is incomplete, but our space and your time are both limited. The Admissions Office cordially invites you to pay us a visit and fill out the rest of the profile through personal experience. Telephone (215) 951-1500 to arrange an appointment.

The People of La Salle

More than buildings, more than books, more than lectures and examinations, education is a matter of people. It is the people who make up La Salle—the students, teachers, and administrators—who give the community its character.

St. La Salle's dedication to teaching is the informing spirit of the University, and you will be conscious of this spirit in the willingness of your professors to give that extra moment of explanation or advice which can mean so much. While many of these men and women are engaged in their own scholarship or research, their primary focus is always the classroom and their basic obligation is to you, the student.

Making the transition between high school and college is never easy, but at La Salle you will find many people who want to help and who understand some of the problems you face perhaps better than you do yourself.

During the summer months preceding the start of classes you and your parents will be invited to participate in the Pre-College Counseling Program. At this time you will come to the campus for a full day of conferences with the Counseling Center staff, as well as representatives from Financial Aid, Resident Life, Placement and other areas of the University. During the program you will have a personal interview with a counselor to discuss your educational and career plans and will meet with an academic adviser who will assist you with your fall roster. In an informal atmosphere of small group discussions, you will also have the opportunity of sharing your ideas with other freshmen, with upperclassmen who have experienced the same transition, and with faculty members and administrators anxious to be of help. The overall aim of the summer program is to make your adjustment to college life as pleasant as possible.

In addition to this initial counseling program, the Counseling Center offers continued diagnostic and counseling services throughout your college years. If you are uncertain of your major or of your career plans, the staff is happy to assist you in making a sound choice based on your interests and capabilities. The center also offers personal counseling and psychiatric consultation, as well as informational services about graduate and professional schools, drugs and alcohol, selective service and a variety of occupations. Besides offering individual counseling, the Center also conducts group sessions on a variety of topics of concern to students. Management of anxiety—particularly test anxiety—assertiveness training, overcoming shyness, improvement of study skills, and group decision making are but a few of the topics that have been the focus of recent group programs. The sessions have proven popular and effective ways of aiding personal growth.

Being part of a church-related college means you are also part of a community in which people care about one another. The Campus Ministry plays an important role in maintaining that sense of community by stimulating student participation in planning and celebrating the liturgy, by encouraging Christian commitment to social action, and by generally making you more aware of what it means to care for God, yourself, and others.

One of the ways students may exercise their commitment to social action is through the Student Community Service Program. This program, a project of the

Urban Studies Center, provides opportunities for student volunteers to use their talents and interests in serving the local community. Volunteers tutor youngsters, work with Philadelphia's homeless, and assist senior citizens with tax problems, to cite only a few examples. In working with people from diverse backgrounds, you may develop increased understanding of your own values, goals, and responsibilities. Like many student volunteers, you may find that the work has contributed to La Salle's aim of producing "graduates . . . ready for informed service and progressive leadership in their communities. . . ."

Nor is your physical well-being neglected while you are on campus. A physician is always on call, and a registered nurse is in daily attendance in the dispensary. Medical insurance is available and recommended to all students.

Throughout your college days, the Director of the Career Planning and Placement Bureau will be at your service to help you select a career and assist you in planning job campaigns. This office is sometimes able to assist students in finding part-time or summer jobs related to their career goals.

All in all, you will find the people at La Salle an important part of your education. Long after you have forgotten painfully memorized facts from a textbook or lecture, you will remember the teachers and students with whom you associated in your college years.

Living at La Salle

When you become part of the community of resident students, you will have greater opportunity for participation in the total collegiate experience. Extracurricular campus life and student activities abound for residents, who also benefit greatly from the convenience and access to academic facilities, student services, and co-curricular programs.

The community of residents is diverse, reflecting the range of backgrounds, personalities, and interests of La Salle's student body. Each floor and building takes on a character of its own, and the give-and-take of daily life in the dorms promotes respect and concern for others, good citizenship, and responsible behavior. The halls contain a mixed group of students ranging from freshmen to seniors and are small enough to encourage a spirit of friendship on the floors.

The Resident Life Staff and the student-run Residence Council sponsor socials, movies, coffee houses, guest speakers, trips, special events (Octoberfest, Spring Fling) and recreational activities. Many University clubs and organizations also sponsor a variety of activities in the residence halls and apartments. When combined with the wealth of cultural, historic, entertainment, sports and educational resources available in the city of Philadelphia, residence life affords students the best combination of a collegiate and metropolitan environment.

Life in a university residence hall is a unique experience not to be duplicated elsewhere. Living with friends—studying, dining, socializing together—provides you with chances to learn about yourself, refine your ability to get along with and learn from others, and formulate goals and values which are critical for personal success after graduation. At La Salle, many things—staff, students, facilities, programs and location—blend to offer residents a convenient, meaningful, and rewarding living experience.

Our History

La Salle University was chartered as La Salle College by the Commonwealth of Pennsylvania in 1863. Its founders were a group of Christian Brothers, some diocesan priests, and several Catholic laymen. It was located at St. Michael's, one of the oldest parishes in Philadelphia. As the new college grew, it moved first to a center city site at Juniper and Filbert Streets and then to the old Bouvier mansion at 1240 North Broad Street.

La Salle moved to its present location at 20th Street and Olney Avenue in 1929, purchasing part of historic Belfield Farm, once the home of American painter Charles Willson Peale. No sooner had work begun on the collegiate Gothic towers of College Hall than the country plunged into the greatest depression it has ever known. Somehow La Salle College survived the financial doldrums of the 1930's only to be faced by the greater threat posed by the depletion of the all-male student body during World War II. At its lowest enrollment the College had only 90 students.

After the war's end, a tremendous influx of veterans created an entirely new challenge of overcrowding. La Salle began an era of expansion that has continued to the present day. In 1970 La Salle ended its century-old tradition as an all-male institution and accepted its first women students. Today women make up 45% of the day school enrollment.

Building and expansion has continued at a rapid pace ever since 1946. A significant resident population of 1250 students is housed on campus. The most recent additions to the buildings on campus include a new wing of the La Salle Union and a 350-bed residence hall and dining room facility. The acquisition of the farm at Belfield in 1984 added significantly to the campus, not only in acreage but also in beauty and historical tradition. Ground-breaking for a magnificent new library will take place this summer.

The physical growth on campus has been matched by the vitality and innovation of academic and student affairs programs. The curriculum is being revised after a careful faculty study. New majors have been added in Computer Science, Communication Arts, and Public Administration, and new minors have been developed in health care administration, international studies, work psychology, urban studies and women's studies. A special honors concentration in business was introduced. Financial aid to students has increased dramatically, as have the activities and services of the Student Affairs area.

In recognition of the growth and diversity of La Salle and the strength of its educational offerings, the Governor of the Commonwealth of Pennsylvania bestowed the status of university on La Salle in 1984, making one of the state's oldest colleges its newest university. Thus a new chapter in the history of La Salle has begun.

The history of La Salle since World War II rested mainly in the hands of these four presidents, all still active on the campus. From left to right, Brother Daniel Burke, Brother Gregorian Paul, Brother Daniel Bernian, and current president, Brother Patrick Ellis.

Our Aims and Traditions

Though often mistakenly connected with the French explorer, the name of the University commemorates the 17th-century French educator and founder of the Christian Brothers, John Baptist de La Salle. The traditions of this saintly, innovative educator have been continued by the Brothers, a non-clerical order of religious who have been teaching in the United States since 1845. Under the auspices of the Brothers, the University strives to continue such La Sallian traditions as devotion to excellence in teaching, concern for ultimate values and for the individual values of its students.

In the light of these traditions, La Salle offers students an education founded on the idea that man's intellectual and spiritual development go hand in hand, complementing and fulfilling one another. The basic purpose of the University is a free search for truth and the development of materials and skills necessary for the search; its religious concern is an extension of that purpose. In a company of mature teachers and scholars, the University urges the student to confront the ultimate questions of human experience: who he is; where his destiny lies; how he is to reach it.

La Salle is committed to a liberal education of both general and specialized studies. It wants its students to liberate themselves from narrow interests and prejudices and to learn to observe reality with precision, judge events and opinions critically, think logically, communicate effectively, and sharpen esthetic perception. The curriculum involves a body of knowledge about the universe; about man—his nature, behavior, and values; about God. It also provides an opportunity to gain specialized knowledge in one field of learning as a preparation for graduate study or entry into professional life. Beyond this breadth and depth of knowledge, the University encourages its students to seek wisdom, that is, to grasp those basic principles which can give order to particular facts.

Although undergraduate education remains its primary purpose, La Salle also offers Master's programs in selected areas of specialization. For the most part, these programs focus on professional goals through advanced study and through application of theoretical knowledge in the fields represented.

As a private Catholic university, La Salle pursues these aims in a religiously diverse community of teachers and students interested in studying secular subjects in their autonomy, undertaking religious studies in a systematic way, and investigating what interrelations, these subjects may have. The community also engages in programs in which the students, personal, social, and religious values may take root and in which the students may grow in mature attitudes and behavior in all human relationships. The ultimate hope of the University is that its graduates will be ready for informed service and progressive leadership in their communities and will be able to fulfill the immediate and final goals of their lives.

Admissions

If a student is well-motivated toward a college career and can show evidence of academic achievement and ability, the Admissions Committee will welcome an application. In arriving at its decision, the Committee studies the high school record, test scores, and the recommendations from high school faculty, guidance counselor, and principal. Each applicant is given personal consideration. La Salle does not discriminate against any applicant for admission because of race, color, creed, sex, national origin or physical handicap. Admission is based solely upon an applicant's qualification and ability to meet the established admission requirements.

APPLYING FOR ADMISSION

The Committee on Admissions will consider a qualified applicant for acceptance any time after completion of the junior year. The following credentials are required for evaluation:

1. A completed application to La Salle University.
2. A transcript of three-year high school scholastic and personality records.
3. The results of the College Board Scholastic Aptitude Test or of the American College Testing Program.

The successful applicant must graduate from high school with creditable grades.

An interested student is encouraged to arrange for a campus visit, which might include a personal interview and tour. Phone 215-951-1500.

In exceptional cases, students may be admitted after completion of the junior year on the recommendation of their high school counselor and evidence of superior achievement.

Applicants may secure application materials from the Office of Admissions. These materials include a form which is to be mailed directly to the University by the high school. Completed applications and the \$20.00 application fee should be sent to the Office of Admissions. The Director of Admissions will notify applicants as soon as possible after a decision has been made. If accepted, a student is asked to forward a \$100.00 deposit, usually within three months of acceptance. This deposit will be applied to first semester expenses; the entire deposit is forfeited if an applicant chooses not to attend La Salle.

ADMISSION REQUIREMENTS

HIGH SCHOOL UNITS

Your record should show successful completion of at least 16 units of high school work including the following:

English	4 units
Mathematics:	
Algebra & Plane Geometry or two years of Algebra	2 units
History	1 unit
Natural Science	1 unit
Foreign Language	<u>2 units</u>
	10 units

The remaining six units may be distributed as follows:

1. Applicants for the *Liberal Arts* program may present six other units in academic subjects.

2. Applicants for the *Science, Mathematics or Computer Science* programs may present six other units in academic subjects but including an additional one and one-half units in mathematics.
3. Applicants for the *School of Business Administration* may present six academic or commercial units, excluding typing.

LANGUAGE REQUIREMENTS

All applicants should present two units in the same foreign language.

ENTRANCE EXAMINATIONS

Applicants to the freshman class are required to take either the American College Testing Program or the Scholastic Aptitude Tests given by the College Entrance Examination Board. These tests should be taken no later than January (SAT) or February (ACT) of the senior year. Arrangements may be made through your high school counselor or by writing, six weeks before the test date, to either:

CEEB—	The Educational Testing Service Box 592, Princeton, NJ 08540
	or
	Box 1025, Berkeley, Calif. 94701
OR	The American College Testing Program
ACT—	Box 451

Iowa City, Iowa 52240

La Salle College's identification number: CEEB-2363; ACT-3608

ACHIEVEMENT TESTS

The CEEB Achievement Tests are not required. These tests are helpful to departmental advisers, however, in determining placement in certain English, mathematics, and foreign language courses. They are recommended, therefore, to students who:

1. wish to apply for a waiver of the freshman composition requirement;
2. desire immediate placement in a calculus course;
3. plan to continue study of a language in college after having completed at least two years of that language in high school.

MEDICAL RECORDS

All accepted students are required to have a report of medical history on file in the Dispensary prior to their attendance at the University.

FOREIGN STUDENT ADMISSIONS

La Salle University is authorized by the Department of Justice, Immigration and Naturalization Service to issue Certificates of Eligibility (Form I-20) for non-immigrant "F-1" student status, to foreign students who meet admissions requirements. Preliminary application materials are available from the Coordinator of Foreign Admissions, La Salle University, Philadelphia, PA 19141.

ADVANCED PLACEMENT

La Salle University participates in the Advanced Placement Program of the College Entrance Examination Board. Consequently, the University agrees to give credit and/or advanced placement to students who perform satisfactorily both in college-level courses

taken in secondary school and in the advanced placement examinations administered by the Board. The equivalents for the grading scale are:

- 5 or 4 = Advanced credit and advanced placement
- 3 = Same, on recommendation of departmental head
- 2 = Advanced placement only on recommendation
- 1 = No advanced placement or advanced credit.

La Salle University also participates in the College-Level Examination Program of the College Entrance Examination Board. Students who wish to be considered for advanced credit through this program should write for information to the College-Level Examination Program, Educational Testing Service, Box 977, Princeton, NJ 08540.

TRANSFER STUDENTS

La Salle University welcomes qualified transfer students to the fall and spring terms and to the Summer Sessions. Candidates for admission from colleges which offer courses of study similar to those of La Salle University should submit transcripts of their college records as soon after applying for admission as is possible. All except A.A. and A.S. degree holders are required to submit their high school transcripts also. Transfer students should submit the results of College Entrance Examination Board tests or of the American College Testing Program, if available. A letter of appraisal from the Dean of Students of the college or university attended is requested in most cases.

All of these records should be in the Admissions Office at least 30 days before the beginning of the semester for which the student is applying. This interval is suggested to provide ample time to process the application, to evaluate transcripts, and to arrange a pre-registration interview.

The previous college record of the applicant must indicate good academic standing. Students applying for transfer from a fully accredited college or university will be considered for admission if their grade point average is 2.25 (on a 4.00 scale), but a 2.50 or higher is preferred. Transfer applicants from colleges which have applied for regional accreditation will be considered if their grade point average is 2.75 or higher (on a 4.00 scale). The decision on each application is based mainly on the grade point average earned at the college or university the student attended before applying to La Salle.

Credit will be allowed for courses completed with grades above the lowest passing grade given at the institution from which the applicant is transferring. Normally, 70 credits may be accepted for transfer.

Transfer students may be required to make up certain courses which belong to the sequence required in the program of studies for which they are applying.

Interested prospective students should direct their inquiries to the Assistant Director of Admissions for Transfer Students.

ACADEMIC DISCOVERY PROGRAM (ADP)

The Academic Discovery Program (Pennsylvania ACT 101) is a special program which provides free counseling and tutorial support services for students whose records indicate that they could benefit from extra academic assistance and who also meet certain criteria of financial need. The ADP helps students establish good study habits, clear career goals, and the ability to compete successfully in the academic setting. Members of the ADP participate in a free pre-college summer program before their freshman year and in assigned counseling and tutorial sessions along with their regular courses during the academic year. As much as possible, each student's program is tailored to his or her individual needs. To obtain application materials, write or call the Day Admissions Office, 215-951-1500. For further information regarding ADP or the Community Academic Opportunity Program Grant, call the Academic Discovery Program Office, 215-951-1084.

ADMISSIONS FOR VETERANS

All veterans coming directly from the service with proof of a high school diploma or its equivalent are eligible to enroll as students at La Salle University. For answers to specific questions, veterans may telephone the Registrar's Office, 215-951-1020.

CONTINUING EDUCATION FOR WOMEN

The Continuing Education for Women (CEW) program at La Salle is designed to ease the transition for adult women who wish to begin or resume their college education. Women may enter this program in the Day or Evening Division whether they are interested in taking single courses or pursuing a degree. Any woman 24 years or older who has a high school diploma or equivalent is eligible to apply. The program includes academic advising, an orientation day, study skills workshops, support groups, individual counseling, referral to campus day care facilities, and special get-togethers for CEW students. CEW encourages potential students to have an interview with a staff counselor to discuss questions she may have about her educational and career goals, and to clarify information about La Salle courses and schedules. To arrange an interview or to apply for admission through the program, visit the CEW office, located on the first floor of College Hall or telephone 215-951-1060.

BUILDING BLOCKS: CHILD DEVELOPMENT CENTER

Established in 1973 by a group of La Salle faculty, students and staff, Building Blocks is a privately incorporated day care center housed on La Salle's campus. Serving the immediate La Salle community and our neighbors beyond the campus, the center cares for some 50 children whose ages range from 18 months to 6 years. The trained professionals at Building Blocks also supervise work study students, volunteers, and students who fulfill certain course assignments through projects at the center. Interested parents should telephone the Director at 951-1573.

ACCOMMODATIONS FOR RESIDENTS

The residence facilities accommodate approximately 1200 students and consist of 10 coeducational halls and two apartment complexes. The dormitory-style residence halls contain single and double rooms which share one bathroom on each floor of men or women. Quad rooms in St. Katherine Hall consist of adjoining double rooms which share a bathroom. One- or two-bedroom garden apartments are available to upper division students.

An application for housing and the required security deposit should be submitted when confirming acceptance. The Resident Life Office will then inform the student of the application's status. If a space is reserved, and the student decides after July 15 not to live on campus, the entire security deposit is forfeited.

The residence halls provide complete living, learning, and recreation facilities. Each room is completely furnished except for bed linens. There are lounges, quiet study areas, recreation areas, and coin-operated laundries. The Campus Store is a convenient shopping center for books, stationery, and personal supplies. Residents are permitted to have cars on campus. Detailed information on resident life and facilities can be found in *You've Got a Lot to Live: The Resident Student Survival Guide*, published by the Resident Life Office.

The resident life administration is headed by a professionally trained staff. A Resident Assistant resides in each living unit and acts as a paraprofessional counselor, referral agent, administrator, and activity programmer. The graduate and undergraduate staff receive room and board compensation and are an outgoing and diversified group who

are interested in working with students to make college life in residence an enjoyable and educational experience.

Both the residence and dining facilities are closed during the Thanksgiving, Christmas and Spring recesses.

For further information about resident life, contact the Resident Life Office, North Halls Complex, Telephone 215-951-1550.

THE LIBRARY

The David Leo Lawrence Library houses a collection carefully developed to meet the academic and research needs of La Salle's faculty, students, and staff. Current holdings include over 305,000 bound volumes, current subscriptions to 1,318 periodicals, and over 40,000 microform pieces. Through its participation in various regional and national networks, the library augments its collection by providing interlibrary loan service to and from other libraries throughout the country. Library Service is also enhanced through the use of the latest information technology. The Reference Department offers computerized literature searching of over 200 electronic databases, cataloging is streamlined through access to a huge bibliographic database, and plans are underway for the installation of a fully automated catalog of the library's holdings.

La Salle's professional librarians strive to provide not only the most efficient and comprehensible organization of the library's holdings but also to instruct students in its use. Bibliographic instruction is offered as part of regularly scheduled classes and on an individual basis. Students requiring assistance with term papers and other academic projects can avail themselves of this service.

Designs are presently being completed for an entirely new library building which will triple the size of the present facility. Through the provision of the latest advances in technology and library design in a building which is both dignified and inviting, the new library will soon provide an environment especially conducive to the independent pursuit of a liberal education.

FOOD SERVICES

The Food Services Department offers a variety of nutritious items in the two cafeterias and snack bar it operates on campus. At La Salle a residence hall student may select from one of the three a la carte meal plans available. The a la carte plan is probably unlike other university food service plans that you are familiar with. Instead of offering a specified number of meals to be eaten within a week, the a la carte meal plan allocates a weekly dollar credit to each participant. You use this credit to purchase menu items during breakfast, lunch or dinner. Each plan provides you with a balance that can be used throughout the entire credit week. Choice of a meal plan is usually based upon your eating habits as well as the number of days per week you anticipate eating on campus.

OFF-CAMPUS HOUSING

In order to assist members of La Salle in locating available housing in the surrounding community, help is available through the Off-Campus Housing Service. The Service provides: off-campus housing referral listings; roommate referral lists; general off-campus rental information (tenant-landlord relations, roommate selection, consumer protection, neighborhood business and services, etc.).

La Salle University does not inspect available accommodations or screen prospective landlords and tenants. Any questions pertaining to off-campus housing should be directed to Off-Campus Housing, Resident Life Office, North Halls Complex, Telephone (215) 951-1550.

COURSE SELECTION

All accepted students will receive a course selection form in the mail in early April. At this time they may indicate their choice of courses for both the fall and spring terms. Additional academic counseling is available to freshmen during the Pre-College Counseling Program in the summer.

STUDENT HEALTH SERVICES

The La Salle University Dispensary provides medical diagnosis and treatment of minor illnesses and injuries and is available to the student body for initial care, first aid, and health information. Located in the North Complex of the Residence Halls on Olney Avenue, directly across from Hayman Hall, it is open Monday through Friday. The Dispensary is staffed by a registered nurse who serves as the Director. University physicians see students in the Staff Clinic of Germantown Hospital five days a week and a physician is available in the Dispensary weekly. The Clinic is located on the first floor of the hospital and referrals to the clinic are made by the nurse from the Dispensary. All students are required to complete the Student Health Services-Health Questionnaire prior to their attendance at the University.

Both medical and dental emergency services have been arranged with local hospitals, and a complete list of private physicians of every medical speciality is also available. Students are responsible for the costs of these treatments.

Health insurance is strongly advised for all students, especially those in residence, and is required for all international students. Students who are under 23 years of age generally can be covered under their own family Blue Cross (Hospital Insurance) and Blue Shield (Medical-Surgical Insurance) program while enrolled as full-time college students. Information concerning special Students' Blue Cross and Blue Shield plans for those not covered by family plans is available.

¹Students living in the residence halls are required to participate in one of the meal plans. The housing contract is a commitment for both Fall and Spring semesters.

In view of rising costs, La Salle University must reserve the right to amend or add to the charges at any time and to make such changes applicable to students presently enrolled as well as to new students.

DEFERRED PAYMENT

If you do not have the entire amount you need to register for the Fall or Spring semester, you can choose the Deferred Payment Plan, which allows you to spread out your payments in three monthly installments throughout the semester. For a \$15.00 application fee and a small finance charge, you can defer payment on as much as 75% of your educational expenses (or as little as \$250.00, if that's all you need.) To find out more information or to obtain your application, contact the Student Loan Office on the Lower Level of College Hall. (951-1054).

MONTHLY PAYMENT PLAN

In cooperation with Academic Management Services, La Salle offers a monthly payment plan designed to relieve the pressure of "lump-sum" payments each semester. This plan allows you to spread the cost over a period of months without borrowing money or paying interest charges. Automatic life insurance is provided at no charge. The enrollment fee is \$40 a year for each enrolled student; there are no other charges. There is no down payment if you enroll in the plan *before April 25*. Please contact the Bursar's Office if you would like to receive an explanatory brochure and application.

SEMESTER INVOICES

Full payment of semester invoices is due in mid-August for the fall term and in

mid-December for the spring term. Students who have not paid in full within the prescribed time are not registered nor are they included on official class lists. MasterCard and VISA may be used for payment of invoices.

GRADUATION FEE

A graduation fee of \$40.00 is due and payable in the spring semester in which the degree will be awarded. The University cannot be responsible for the inclusion in the graduation program of any candidate who pays fees after the deadline set at the billing date. The graduation fee covers the Graduate-Faculty Reception, baccalaureate services, the cost of the diploma, the use of cap and gown, and all other expenses incidental to the commencement exercises. No candidate may be recommended for a degree, diploma, or certificate until the graduation fee and all other financial obligations have been paid.

REFUND OF TUITION

Under certain circumstances, students who withdraw may receive a partial refund of tuition. There are no exceptions to the following terms and conditions.

Fall and Spring Undergraduate Semesters

<i>Time of Withdrawal</i>	<i>Refund</i>
Before first day of class	100%
During first week	80
During second week	60
During third week	40
During fourth week	20
After fourth week	None

28

For the purpose of refund, the student shall be considered to be in continuous attendance up to and including the date of submission of proper notice of withdrawal. The notice of withdrawal must be addressed to the Dean of the particular school. Ceasing to attend or giving notice to an instructor does not constitute proper notice. The allowed percentage of refund shall be based upon the official withdrawal date which shall be determined by the date the notice of withdrawal is received by the Dean, or the postmark, if mailed.

For the purpose of refund computation, a week shall be defined as the period of seven successive days beginning with the official University opening of classes and NOT the first day in actual attendance by a particular student.

In those instances where a student's educational expenses were satisfied in whole or in part by Title IV Program Funds, and a refund of these educational expenses is authorized, that refund will be proportioned in accordance with U.S. Department of Education regulations governing refunds and cash disbursements made directly to students. Under those regulations, priority is given to the return of funds to Title IV Assistance Programs in the following order: State Grant Programs, SEOG, NDSL, Pell Grants, Guaranteed Student Loans. Students should be aware that the regulations may prevent the refund of any personal funds used for payment of tuition and fees. In instances where a student has received a cash disbursement prior to the recording of his or her withdrawal, the student may be required to return those funds to the University.

ROOM AND BOARD REFUND POLICY

Meal Plan

If a student leaves the Residence Halls, a pro-rata refund will be made for the unused portion of his or her meal plan upon return of the meal card to the Food Service.

Room Rent

Regardless of the reason for vacating, refunds will not be made for unused room rent.

Financial Aid

Since the primary responsibility for college expenses rests with parents and student, financial assistance is normally granted on the basis of financial need together with demonstrated and potential academic achievement. The information below lists sources of aid available to students attending La Salle and the method of application.

CHRISTIAN BROTHERS' SCHOLARSHIPS

La Salle University offers fifteen full tuition scholarships to students graduating from all Catholic high schools in the Philadelphia and Camden dioceses and from high schools conducted by the Christian Brothers of the Baltimore Province. Selection is based on academic excellence and potential for leadership in the La Salle community. Applications are restricted to students nominated by their high school principal. Scholarship application forms will be sent directly to nominees designated by the principals. All completed scholarship materials must be received by the appropriate office at La Salle no later than February 1.

COMPETITIVE SCHOLARSHIPS

Twenty-seven scholarships providing full tuition are offered annually to high school seniors who have demonstrated exceptional academic aptitude and achievement. This scholarship competition is open to high school seniors who have scored approximately 1300 in the College Board Scholastic Aptitude Test and who have a class rank in the top 10 or top 10% of the high school graduating class. Application materials may be obtained by contacting the Director of the Honors Program. The completed scholarship materials must be received by the appropriate office at La Salle no later than February 1.

NATIONAL MERIT GRANTS AND SCHOLARSHIPS

Students selected as National Merit finalists, semi-finalists, and letter of commendation recipients are eligible for grants through the University. Finalists qualify for \$800 per academic year, semi-finalists receive \$600 per academic year and commendation recipients are granted \$300 per year. These grants are applicable to tuition charges and are renewed yearly pending completion of the Pennsylvania State Grant and Federal Student Aid Application.

La Salle University offers two National Merit Scholarships annually ranging from \$300 to \$2000 per academic year. Students are selected by National Merit Scholarship Corporation from those qualifying in the College Boards and indicating La Salle University as the first choice institution. Nominees should complete the application for Pennsylvania State Grant and Federal Student Aid.

CHRISTIAN BROTHERS' GRANTS

La Salle University offers a limited number of partial grants to students who have established financial need through a needs analysis system, e.g. either the PHEAA or FAF application. These partial grants can be renewed yearly pending completion of the needs analysis form.

ATHLETIC GRANTS

La Salle University offers grants to men and women excelling in athletics. Contact with the La Salle University Athletic Department is made by the student's high school coach. These grants can be maintained through the four years of study at La Salle University.

COMMUNITY ACADEMIC OPPORTUNITY PROGRAM (CAOP)

The Community Academic Opportunity Program is a grant available to students who have been accepted into the Academic Discovery Program. It is designed to give financial assistance to economically and educationally disadvantaged minority students from the surrounding neighborhoods; specifically, a student must reside in zip code areas 19119, 19120, 19126, 19138, 19141, 19144 or 19150.

The amount of the grant will be equal to the difference between the total of tuition and fees minus all gift aid which the student is eligible to receive; i.e., Pell and PHEAA grants as well as private aid. In addition, the student will receive up to \$300 per academic year for books and supplies.

PELL GRANTS

The Pell program is a federally administered program available to needy students taking no fewer than six credits per term. Students may receive from \$250 to \$2100 per academic year. Applications are available from your high school guidance counselor or the La Salle Financial Aid Office. Eligibility is determined by the federal government and notification is sent directly to students. In addition to financial need, a student must make normal progress toward a degree to retain eligibility.

PENNSYLVANIA HIGHER EDUCATION GRANTS (PIHEAA) AND OTHER STATE GRANT PROGRAMS

30

Pennsylvania state grants are administered by Pennsylvania Higher Education Assistance Agency and range from \$100 to \$1650. Eligible students must demonstrate financial need, maintain Pennsylvania residency, be enrolled on a full-time basis, and complete a minimum of twenty-four credits per year. Applications are available from high school guidance counselors or the Financial Aid Office.

Other states in addition to Pennsylvania have scholarship programs for their residents. Information and applications would be available from the respective State Boards of Education.

NATIONAL DIRECT STUDENT LOANS

The NDSL provides needy students with long-term, low interest loans for educational expenses. The University determines the amount of the loan to be offered within certain federal guidelines. Interest at the rate of 5% per year on the unpaid balance begins to accrue six months after the student ceases at least half-time study. The loan repayment period may be as long as ten years, depending upon the total amount borrowed. Students must make normal progress toward a degree to maintain eligibility. La Salle University requires submission of the application for Pennsylvania State Grant and Federal Student Aid to determine eligibility.

COLLEGE WORK STUDY PROGRAM

The College Work Study program provides needy students with access to part-time jobs in both on- and off-campus locations. The funds earned do not provide direct tuition relief, but are intended to help meet incidental expenses encountered by students. Students are paid on a weekly basis for the number of hours worked. The total amount that may be earned through the work program is determined by students' needs and availability of funds at the University. Employment is limited to an average of twenty hours per week while school is in session. La Salle University requires submission of the application for Pennsylvania State Grant and Federal Student Aid for eligibility evaluation. In addition to demonstrating need, students must make normal progress toward a degree to maintain eligibility.

SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANTS (SEOG)

The SEOG program is a federally funded college administered program available to needy students in amounts up to \$2000 per academic year. La Salle University requires submission of the application for Pennsylvania State Grant and Federal Student Aid for eligibility evaluation. In addition to financial need, students must make normal progress toward a degree to retain eligibility.

STATE GUARANTEED LOANS (SGL)

This loan program is administered by state governments with the assistance of participating lending institutions. Students taking at least six credits may apply to the program and receive as much as \$2500 per academic year, at the rate of 8% interest per year. Interest will begin to accrue six months after the student ceases at least half-time enrollment. Students should contact home state bank systems regarding program participation. Applications should be submitted as early as possible to ensure timely receipt of funds; processing may take as long as eight weeks.

PARENT LOANS FOR UNDERGRADUATE STUDENTS (PLUS)

This program allows parents to borrow a maximum of \$3000 an academic year for each dependent undergraduate student. The interest rate is 12% and repayment begins within 60 days after the disbursement of funds. Independent undergraduate students may also borrow from the PLUS program. However, these students may not borrow more than a combined total of \$2500 from both the PLUS and Guaranteed Student Loan programs. Contact your local banks regarding program participation.

ARMY ROTC SCHOLARSHIPS

Army ROTC scholarships are offered for four, three, and two years. The four-year scholarships are awarded on a worldwide competitive basis to U.S. citizens who will be entering college as freshmen. The three- and two-year scholarships are awarded competitively to students who are enrolled or are eligible for advanced placement in ROTC, including those who are cross-enrolled.

Students who attend the Basic Camp of the two-year program may also compete for two-year scholarships.

The scholarships pay for tuition, textbooks, lab fees, and provide a living allowance of up to \$1000 each year the scholarship is in effect. The value of the scholarship depends on the tuition and other educational costs of the university or college attended.

Contact the Department of Military Science, 215-951-1365/1366, for further information.

PRIVATE SCHOLARSHIPS

There are many special assistance programs that offer scholarships, grants, and loans to students. You may qualify for one of these programs through religious affiliation, ethnic heritage, parents' employers, organizational memberships, or a special talent. Programs through state and/or federal agencies—e.g., Veterans' Bureau, Bureau of Vocation Rehabilitation and Social Security Bureau—may also offer financial aid to qualified students. Knowledge of these programs is available through books and pamphlets on scholarships and financial aid in your school or local library or in the Financial Aid Office.

APPLICATION PROCEDURES FOR FINANCIAL ASSISTANCE

Incoming students who are residents of Pennsylvania and all returning students regardless of state residency must file the Pennsylvania State Grant and Federal Student Aid (PHEAA) Application. Incoming students who are residents of the states other than Pennsylvania must complete either the PHEAA application or the College Scholarship Service Financial Aid Form (FAF). An Institutional Aid Application must also be submitted directly to the Financial Aid Office. Incoming students may obtain this form from the Admissions Office. Returning students will receive the form in the mail sometime in December. The deadline for completion of these forms is February 15 for new students. All applications for renewal consideration must be filed by March 15.

La Salle University's financial aid programs are organized to help the able student who needs financial assistance. As long as there is continuing evidence of academic progress as well as financial need, the University will make every effort to assist the student.

Academic Programs and Procedures

REGISTRATION

During an announced pre-registration period in the spring term, students meet with their chairman or adviser to plan a roster of courses for the upcoming year. On the basis of this pre-registration, the Registrar's Office publishes a Master Roster listing courses, times scheduled, and teachers assigned. The student then chooses a course section, time, and teacher. The Business Office will bill the student in August and December for the courses chosen, completing the registration process.

Students who have not completed mail registration will register on campus during the week before classes begin.

If students cannot register during this period because of circumstances beyond their control, they may complete registration during the first two days of classes.

Late registration is permitted only in the most unusual circumstances and requires the permission of the dean of the school and the payment of a fee of \$10.00.

PROGRAM OF STUDIES

The program of studies prescribed by the student's adviser and approved by the dean of the school in which the student is enrolled is his or her official roster of courses.

It is the student's responsibility to see that all the requirements of this program are fulfilled. He or she should have in writing from the dean any exceptions to the prescribed program which may be granted.

Students may be permitted to change from one program to another, or from one area of instruction to another, only when their previous record indicates that they may profit by such a change. In any change of this type the student must have the written permission of the chairman and the dean of the school. This change may entail taking approved summer courses or an additional semester in college. In no case may students who transfer receive promotion or a degree sooner than they would have received it had they not transferred. No degree may be received less than one year after change of curriculum.

CLASSIFICATION OF STUDENTS

A full-time student carries a *minimum* of twelve semester credit hours; many carry an average of fifteen semester credit hours. A student's program may require more hours per week in some areas of instruction.

Class level is determined by the number of credit hours earned by the student. Students having 0 to 23 credit hours are considered freshmen; those who have earned 24 to 53 credits are sophomores; those having 54 to 83 hours juniors; and those with more than 84 credit hours are classified as seniors.

Part-time students carry a roster of less than twelve hours per week. Students in this category will require more than the normal four years in which to earn a degree.

Students who do not fulfill certain admission requirements may be admitted to follow particular courses and are considered as special students. They do not register for a degree granting program. Credits earned by a special student may be counted towards a degree as soon as he has met all the requirements for admission and candidacy for a degree provided that the credits thus earned be applicable to his program of studies for the degree. A special student cannot hold a scholarship nor take part in extracurricular activities.

URBAN STUDIES

Students may design a minor concentration by choosing distribution requirements and electives in Urban Studies. The Economics Department supervises this program but it is multi-discipline in all essentials. Economics, Political Science and Sociology faculty co-teach most of the courses and professors from an even wider group of disciplines serve in close advisory capacities.

After five introductory courses students complete their Urban Studies concentration with a senior semester of integrated seminars and field work. Placements and projects are chosen to complement major programs. At all levels students and faculty work closely with the staff of the La Salle Urban Studies and Community Services Center.

INTERNATIONAL STUDIES MINOR

Any student, regardless of his or her major field, can pursue as an interest the Minor in International Studies. This multi-discipline program allows the student to select courses offered by many departments.

The Minor in International Studies requires a total of six courses. At least three of these can also fulfill other university requirements.

Economics, Political Science, and Business students will have to use only two or three electives in order to complete the program. Other students will have to devote about four elective courses for this purpose.

Students planning to spend one or two semesters abroad will probably be able to complete a portion of the program there and should meet with the Director before departing.

Interested students should see Dr. Joshua Buch, the Program Director, College Hall 314, Ext. 1030.

WOMEN'S STUDIES MINOR

The interdisciplinary Women's Studies Minor provides a contrast and balance to the traditional curriculum by putting women, their accomplishments and contributions, and traditional sex roles at the center of study. By choosing six courses from the interdisciplinary offerings, women and men students of any major may design a minor that complements their major. Courses are offered in the disciplines of English, communication arts, history, sociology, religion, philosophy, psychology, and foreign languages. A field internship or independent study may constitute one of the six required courses.

Interested students should see Dr. Laura Otten, Coordinator, Olney 366, ext. 1118.

DUAL MAJORS

In some circumstances, a student with special needs and abilities may be permitted to major in two departments or to follow a special interdepartmental program. After developing the program in consultation with both departments, the student must obtain approvals of both chairmen and of the dean. Arrangements should normally be completed during the spring semester of the sophomore year.

HONORS PROGRAM

The Honors Program is designed to provide the most academically talented students with an enriched program of general studies that will be both challenging and stimulating. The freshman honors student, as an apprentice in the program, studies in honors sections of two or three required courses. Students who prove themselves able and interested continue with honors courses in such areas as religion, philosophy, and

English, which offer more depth and more advanced reading. In the upper division, such courses will frequently be given by distinguished visiting professors.

In the last two years, the honors student may, with the approval of the chairman, substitute an independent study course in each semester for any regularly scheduled course except religion or seminar. Class meetings in these courses are less frequent, and emphasis is on individual reading and research. Students who complete the requirements of the Honors Program are graduated with General University Honors. Further information on the program is available from the Director of the Honors Program.

COOPERATIVE EDUCATION PROGRAM

The Cooperative Education Program permits students to integrate classroom theory with practical experience by alternating specific periods of attendance at the College with specific periods of employment.

A student may begin a coop program as early as the sophomore year and still complete requirements for graduation within four and a half years. Cooperative education can add relevance to a student's academic program, furnish practical experience, afford an understanding of human relationships outside of one's peer group, and provide realistic vocational information as well as financial assistance.

Students interested in learning more about this program should see the Director of Cooperative Education in the Career Planning and Placement Office.

LA SALLE IN EUROPE—FRIBOURG, SWITZERLAND

Recognizing the advantages of travel in other countries and first-hand contact with other cultures, La Salle University offers a sophomore and junior year program which provides its students a first-hand opportunity to study at the University of Fribourg in Switzerland. Nestled in the valley of the Sarine, Fribourg is one of the most beautiful cities in one of the most beautiful countries in the world.

A unique feature of the University of Fribourg is its official bi-lingual character; courses are offered in both French and German, often the same course in either language. In conjunction with Providence College, La Salle University forms part of the American College Program of the University of Fribourg.

In most instances, students will be housed in private homes or apartments located near the university. The rooms are chosen by the resident director of the program. Students accepted into the program attend an orientation course during the semester prior to departure. Those students deficient in French or German will be permitted to enroll in special courses during the summer before departure. A 2.5 Grade Point Average is required. Interested students should see Dr. Bernhardt Blumenthal, Director of the La Salle in Europe program.

SPANISH LANGUAGE PROGRAM—UNIVERSITY OF MADRID

La Salle University is a member of the Academic Year Abroad Foundation which is affiliated with the University of Madrid, Spain. This program is for one semester or a full year. Courses are offered in the language, literature, history and art of Spain. In addition there is a special program for business students. Participants are placed with Spanish families. Meals are taken at the place of residence.

The principal aims of the program are:

1. To help the student achieve fluency in the spoken and written language.
2. To give the student the opportunity to experience and understand the nature of Spanish society and institutions through constant and direct exposure to the nation's history, art, and contemporary life.

3. To prepare the future teacher of Spanish for the role which he will play in the classroom situation.

Interested students should see Dr. Leonard Brownstein, Professor of Spanish.

NURSES' COOPERATIVE PROGRAM

La Salle participates in a cooperative program with a number of area hospitals in teaching the basic sciences to the students from these hospital schools. The essential program remains under the control of the parent schools. These students receive college credit for those courses attended at La Salle.

URBAN STUDIES AND COMMUNITY SERVICES CENTER

The Urban Studies Center seeks to involve the resources of the College in the larger urban community. Its major programs are: (1) the Communiversity—non-credit adult education designed for area residents, (2) technical assistance to neighborhood groups in grant and program development, and (3) community organization services focused on the needs of the low-income, multi-racial and ethnic communities bordering the College. The Center also draws upon the experience of neighborhood leaders to enrich its programs and La Salle's Urban Studies curriculum. Students and faculty with urban research and social service interests are encouraged to visit the Center, located at the corner of Wister and Clarkson, or to call 215-951-1188.

COURSES AT CHESTNUT HILL COLLEGE

36

The cooperation of La Salle with Chestnut Hill College, a Catholic college for women situated about five miles from La Salle, results in a valuable coordination of programs. Students from either of the associated colleges can register for courses at the other college, with full credits, and without the payment of extra tuition. The calendar for the academic year in both colleges is identical. Students wishing to register for courses offered at Chestnut Hill will follow the same procedure as when they register for courses at La Salle. Classes at Chestnut Hill begin on the hour, at La Salle on the half-hour.

Students interested in preparing for elementary education may take part in a special cooperative program with Chestnut Hill College, which may be arranged in consultation with the Dean of the School of Arts and Sciences.

SUMMER SESSIONS

A variety of courses are offered in both day and evening sessions during the summer. A student may use these courses to enrich his academic program, to lighten his regular schedule, to make up failures, or, in some instances, to accelerate his progress toward a degree. The Summer Sessions are administered by the Dean of the Evening Division.

Properly qualified applicants from other accredited institutions are also admitted to the Summer Sessions.

ARMY RESERVE OFFICERS' TRAINING CORPS PROGRAM (ROTC)

Students get leadership and management training in the military science program—and they graduate with an officer's commission as well as a degree in their chosen academic major. Successful completion of the advanced ROTC program results in second lieutenant status in the active or reserve components of the U.S. Army.

Students (male and female) may participate in the ROTC program at La Salle by so specifying on their course selection form. No service obligation is incurred during the first two years of the program. Military Science 100 and 200 level courses are tuition free to full-time students. See course descriptions, listed under Military Science.

Students who successfully complete both MSC 100 and 200 level courses may be chosen for the advanced course. Advanced course and ROTC Scholarship recipients also earn a monthly stipend of \$100.00. (See Financial Aid section for more information on the ROTC Scholarship Program.)

Students transferring to La Salle, or current students who have not previously participated in ROTC, may take advantage of the special two-year program. They should make arrangements through the Department of Military Science as soon as possible.

Additional information is available from the Department of Military Science, La Salle University, Philadelphia, PA 19141, (215) 951-1365.

AIR FORCE RESERVE OFFICERS' TRAINING CORPS

La Salle students are eligible to participate in Air Force Reserve Officers' Training Corps (AFROTC) through a cross-enrollment agreement with St. Joseph's University. All Aerospace Studies courses will be held on the St. Joseph's campus. The AFROTC program enables a college student to earn a commission as an Air Force officer while concurrently satisfying requirements for a baccalaureate degree.

For further information on the cross-enrollment program, scholarships, and career opportunities, write or telephone the Professor of Aerospace Studies, AFROTC Det 750, St. Joseph's University, Philadelphia, PA 19131, (215) 879-7311.

NAVAL RESERVE OFFICERS' TRAINING CORPS

Through a cross-enrollment agreement with the NROTC unit at the University of Pennsylvania, La Salle students may earn commissions as naval officers while concurrently satisfying requirements for baccalaureate degrees at La Salle. NROTC courses will be held on the campus of the University of Pennsylvania. For further information on this cross-enrollment program or on scholarship aid, write or telephone: Professor of Naval Science, NROTC Unit, University of Pennsylvania, Philadelphia, PA 19104, (215) 898-7436.

ATTENDANCE POLICY

Students are expected to attend classes regularly. Absences are permitted to provide for conditions beyond the control of the student. Ordinarily, these would be equal to twice the semester hours scheduled for the course; for example, six absences in a three-hour course. Attendance is noted from the first regular class meeting regardless of the time of registration.

EXAMINATIONS

The last week of each semester is set apart for final examinations. Examinations to measure student progress are given at mid-term. Students who, for satisfactory reasons, fail to take a semester examination as scheduled may take a delayed examination.

GRADES

The following system of grades is used in measuring the quality of student achievement.

A Superior	C Average	F Failure	W Withdrawal	U Unsatisfactory
B Very Good	D Passable	I Incomplete	S Satisfactory	X Audit

In the determination of final grades for courses, recitations, written assignments, and the results of the final examination are considered.

Incomplete: The I grade is a provisional grade given by an instructor to a student who has otherwise maintained throughout the semester a passing grade in the course, but who has failed to take the semester examination for reasons beyond his control. Make-up examinations for the fall semester must be completed before the opening day of the spring semester. All I grades that have not been removed within three weeks after the last regular examination of the semester become F's. When it is physically impossible for the student to remove this grade within the time limit, he must obtain a written extension of time from the dean of his school.

Withdrawal: The W grade is assigned when a student withdraws from a course with the dean's permission before its completion. Ordinarily permission for withdrawal is not granted after mid-term examinations.

Satisfactory or Unsatisfactory: Students may take free electives under a pass/fail option. If they indicate this option to the Registrar within three weeks after the course begins, the grade for the course will be recorded as S or U. Such a grade will not affect the cumulative index, but semester hours graded S will be counted toward the total required for graduation. The purpose of this option is to encourage choice of challenging electives, including those outside the student's major field.

Audit: The X grade is assigned for courses audited. After obtaining permission from the course instructor and the dean, a student wishing to audit a course may sign up in the appropriate dean's office before the first day of class.

Courses repeated: If a student repeats a course, only the higher grade is counted in the academic index. A student may not repeat a course more than once without permission from his dean.

CLEP EXAMINATIONS

Students may receive credit for approved courses taught in the La Salle University curriculum through participation in the College Level Examination Program (CLEP) of the College Entrance Examination Board, or through other authorized standardized testing procedures or in-house tests. Students who wish to attempt credit through examination must receive permission from their Dean's office to determine which examinations are acceptable to La Salle, and to obtain permission for participation.

While the Academic Dean determines the credits to be granted for CLEP and other authorized standardized testing procedures, the individual department designates the subject examinations which are applicable to specific courses at La Salle University. Students may not be granted credit for a general examination CLEP course after completion of the freshman year, and a student who has received credit through conventional courses or through standardized testing for one or more advanced courses in a discipline may not challenge a beginning course in that discipline. No grades are assigned to courses credited through authorized standardized testing procedures.

Students who elect to receive credit through authorized standardized testing procedures or approved in-house tests will pay an administrative fee of \$45.00 for each course examination taken.

STUDENT RESPONSIBILITIES

A student's matriculation at La Salle University is a voluntary decision which involves acceptance of the responsibility to perform academically and to behave socially in ways consistent with the goals and objectives of the University. When registering at La Salle, the student accepts University rules and regulations and the authority of the University to exercise disciplinary powers including suspension and dismissal. As a member of student organizations and as an individual, the student assumes responsibility for knowing and complying with all existing regulations in the *University Bulletin*, the

Student Handbook, The Resident Student Survival Guide and any rules and regulations subsequently promulgated through appropriate publication to the University community. Copies of the *Student Handbook* may be obtained from the Student Life Office.

STUDENT REPORTS

A progress report is submitted to the Dean's Office by each instructor at the middle of each term. Final grades are submitted to the Registrar's Office at the end of a semester and these are made part of a student's permanent record. A report of semester grades is mailed to the student within two weeks after final examinations.

SCHOLARSHIP INDEX

A scholarship index system is used at La Salle to determine a student's average grade. In determining the index, each letter grade is ascribed a numerical value, called grade points. A is valued at 4 grade points; B is valued at 3 grade points; C is valued at 2 grade points; D is valued at 1 grade point; F is valued at zero grade points.

A grade point score is calculated for each course by multiplying the numerical equivalent of the letter grade by the number of semester hours. The index, or the average grade of all courses, is found by dividing the sum of the grade point scores for all courses by the total number of semester hours of course work attempted.

ACADEMIC PROGRESS

A full-time student is making adequate progress toward the degree if he or she has:

1. completed within the academic year (fall, spring, and summer) eighteen hours of new course work at satisfactory academic levels as indicated:
 - a) completed freshman status—1.50 or above*
 - b) completed sophomore status—1.75 or above*
 - c) completed junior status—2.00 or above*
 - d) within the senior year: 2.00 or above*

*See page 32 for definitions of status.

2. completed graduation requirements within a maximum of seven years of full-time study. For justifiable reason, exceptions may be determined by the Dean.

This policy statement defines the parameters within which the University will define the progress of the student for aid and funding purposes. Since the decisions rest with the granting agencies, "adequate progress" does not guarantee such aid.

DEANS' HONOR LIST

The Deans' Honor List is published at the termination of each semester. Those students who have a cumulative average of 3.4 are placed on the Deans' List. To be eligible for this list, a student must have complied with all the regulations of the University and must have earned 24 credits with letter grades A, B, C, or D at La Salle University.

While students on the Deans' List are excused from class attendance regulations, they are expected to fulfill the requirements of every course rostered. They are also eligible for courses in the University's honors program.

ACADEMIC CENSURE

Academic censure is intended to be a service to the student who is in academic difficulty. It serves to alert some to the severity of their academic problem and to encourage them to seek help and counsel they need. For others, it is the imposition of a time period away from academic endeavors to permit adjustment of priorities.

Academic censure may assume any one of three forms, depending on the student's

academic standing. During the evaluation of student records at the end of each semester, a student will normally be subject to the form of academic censure indicated if the cumulative grade point average falls below the levels outlined.

(a) *Probation.* A student is placed on probation who has attained a cumulative grade point average of (a) less than 1.50 after the first or second term of freshman year, (b) less than 1.75 after the first or second term of sophomore year, (c) less than 1.90 after the first term of junior year, (d) less than 2.00 after the second term of junior year or during senior year. Such a student will be continued on probation until he has satisfied the conditions for good academic standing.

(b) *Suspension.* This is involuntary separation of the student from the University for a definite period of time, usually for two semesters. No academic work during a period of suspension will be accepted for a student's academic record at the University.

(c) *Dismissal.* This is involuntary separation of the student from the University for an indefinite period of time. No academic work during a period of dismissal will be accepted for a student's academic record at the University.

A student is liable to suspension or dismissal: (1) when he/she has attained a cumulative scholarship index (a) less than 1.00 after the freshman year, (b) less than 1.50 after the sophomore year, (c) less than 1.90 after the junior year or (2) when he/she is on probation for two successive semesters.

Decisions on Probation will be made following determination of grades after the Fall semester, and after the final La Salle summer session. Decisions on Suspension and Dismissal will be made following determination of grades after the final La Salle summer session.

40

CREDIT FOR OFF-CAMPUS COURSES

Course work taken at other institutions by regularly-enrolled students at La Salle University may not be offered for credit unless the student has had written permission in advance from the dean of his school to take such courses. Credit is transferred only for marks of C or better. The student's index may be affected only if the credit is for a course previously taken at La Salle.

REQUIREMENTS FOR A DEGREE

Students are responsible for filing an application for degree with the Registrar one year before the expected date of graduation.

Beginning with the graduating class of 1987, a candidate for the baccalaureate degree must have completed 120 semester credit hours which satisfy curricular requirements and which include at least 38 courses of 3 credit hours or more.

Certain curricula may require a number of hours exceeding this minimum. In addition to completing the required number of courses and hours, the student must also:

(a) have obtained a C average or cumulative index of 2.00 in his prescribed program of studies,

(b) have fulfilled all course requirements prescribed for him by the chairman of the department in which he majored and approved by the dean of the school in which he is enrolled,

- (c) have fulfilled the General Education and Distribution Requirements.

Requirements for a Second Bachelor's Degree: La Salle will award either a B.A. or a B.S. degree to a student who has already earned a bachelor's degree from an accredited institution if these conditions are met:

- (a) The student will obtain written permission from the appropriate dean and chairman.
- (b) If the student holds a bachelor's degree from La Salle, he or she will meet substantial requirements for the major as determined at the time the student matriculates in the second degree program. A minimum of 30 credit hours would be required.
- (c) If the student holds a bachelor's degree from another institution, a maximum of 70 credit hours may be transferred toward the second degree. The student must fulfill all core requirements as well as substantial requirements of the major as determined at the time the student enrolls in the second degree program.

HONORS

The bachelor's degree with honors is conferred on a student who has completed his course at the College with an average of all marks not lower than 3.4 and who has not incurred the penalty of loss of good standing for disciplinary reasons.

The candidate for the bachelor's degree who has earned an average of 3.8 in all courses is graduated with the distinction *Maxima Cum Laude*.

The candidate who has earned an average of 3.6 is graduated with the distinction *Magna Cum Laude*.

The candidate who has earned an average of 3.4 is graduated with the distinction *Cum Laude*.

Honors are computed on the basis of the work done for eight semesters.

41

WITHDRAWALS

A student who withdraws from the University must submit a withdrawal notice to the dean of his school. The date of filing the withdrawal notice is considered as the date of withdrawal in all cases.

TRANSCRIPTS

Students may apply at the Registrar's Office for a transcript of their collegiate work. Official transcripts bearing the signature of the Registrar and the seal of the University are sent, at the request of the student, to other institutions and organizations. Students requesting transcripts for their own use are given copies marked "student copy." Each student is sent a copy of his transcript at the time of graduation. A fee of \$1.00 is charged for an official transcript. When several copies are requested at the same time, the fee is \$.50 for each additional copy. The University requires at least one week's notice for the issuance of transcripts. No transcripts can be issued until all financial obligations to the University have been satisfactorily settled.

DEGREE PROGRAMS

The School of Arts and Sciences offers general or liberal arts programs and programs in science and mathematics. Within these two areas you may further specialize in a major field of study. In the liberal arts, the Bachelor of Arts degree is offered in art history, communications, economics, English, foreign languages, history, music, philosophy, political science, religion, and sociology. Concentration in the science area may lead to a B.A. degree in biology, chemistry, geology, mathematics, physics, or psychology.

The School also offers programs designed as preparation for health professions, law, public administration, teaching, social work, and work in criminal justice. The Bachelor of Social Work degree is conferred upon social work graduates.

Preparation for the Health Professions

Students preparing for careers in the health professions (medicine, dentistry, veterinary medicine, podiatric medicine, optometry) generally major in biology or chemistry, but may elect to major in any program provided they schedule the required minimum science and mathematics courses to support their applications. The courses specified by the Association of American Medical Colleges for Medical School applicants are generally applicable as minimal requirement for any of the health professions. They are:

Chemistry	12-16 sem. hrs.
Physics	8 sem. hrs.
Biology	8 sem. hrs.
Mathematics	0-6 sem. hrs.

Most professional schools will accept these as minimal preparation, but recommend additional courses. Students should be alert to the fact that professional schools are interested in demonstration of aptitude in science and mathematics, and the courses taken must be those normally rostered by majors in these areas, not courses offered for non-major election.

In the normal review process in these schools, the applicant's full undergraduate record is scrutinized. The strong liberal arts component in the La Salle curriculum will provide evidence of broad interest and rounded academic development. Evidence of leadership and active interest in associated activities will lend strong additional support to applications.

Normally the competition for placement in these programs results in high acceptance standards. Grade point averages ranging from 3.0 to 3.5 are representative of levels expected in these programs. Students are encouraged to consult with the health professions adviser concerning admissions criteria at various schools.

Preparation for Teaching

The teacher preparation program leads to eligibility for an Instructional I certificate to teach in either the secondary schools or to teach mentally and/or physically handicapped students in the elementary and secondary schools of Pennsylvania. The Pennsylvania Department of Education has granted program approval in the preparation of teachers of biology, chemistry, communications, English, French, German, Italian, Latin, mathematics, physics-mathematics, Spanish, special education, and comprehensive social studies. Students who satisfactorily complete the University's requirements in these areas and are recommended by the Teacher Education Committee are issued teachers' certificates. Those planning to teach outside of Pennsylvania should familiarize themselves with certification requirements elsewhere.

The Education Departmental Board, consisting of faculty members from the education department, one faculty representative for each of the subject areas of teacher preparation, and student representatives in the teacher preparation program makes final intradepartmental decisions on planning, conducting, and evaluating the teacher preparation program. A Teacher Placement Office on campus aids graduates in obtaining positions.

Preparation for Law

Law schools do not prescribe particular curricula for admissions. La Salle University, therefore, approaches the preparation for law on an individual basis, tailoring the program of each student to individual needs and desires. Thus, students may major in English, political science, history, etc., as preparation for law.

Any student considering law as a career, regardless of his major curriculum interest, is encouraged to seek early counseling with the pre-law adviser, Dr. Edward Domineske.

Preparation for Criminal Justice Professions

Students preparing for careers in criminal justice professions pursue a curriculum which combines liberal arts with intensive coursework in the behavioral and social sciences and specialized courses in criminal justice. A major in criminal justice qualifies the student for admission to graduate programs in criminal justice and prepares the student for entry-level positions in law enforcement, judicial administration, probation, parole and correctional administration.

Preparation for Social Work

The primary objective of the social work program is to prepare competent, generalist practitioners for entry-level positions in the social work profession. Building on a liberal arts foundation, a knowledge of basic social work theory is acquired. The student explores the biological, psychological, social, economic and political phenomena that have an impact on people. There is a heavy emphasis on the development of skills needed to mobilize systems and resources for the enhancement of social functioning for the humanizing of institutions, and for the promotion of social change.

A secondary objective of the program is to prepare students for graduate studies in social work and other human service professions. To this end, a firm theoretical base is laid to support advanced study.

Graduates of the program have developed careers in both public and voluntary agencies. They are in such fields as child welfare, family services, aging and public welfare. Many graduates choose to go on to graduate school either directly or after having gained work experience.

THE CORE CURRICULUM

The Core Curriculum provides you with an opportunity to build a strong foundation for the future. It encourages you to work out a system of values rooted in the best thinking of the great minds of the past and present.

Whatever your eventual major, your core courses will have allowed you to acquire a basic body of knowledge and habits of thinking that are independent of career interests. The Core Curriculum at La Salle has been recently revised after several years of study and debate on the part of students, faculty, and administrators. This new curriculum will give you a real advantage as you attempt to build your life and your career after graduation. It will help you *learn how to learn* by giving you experience in researching information, understanding relationships, and communicating effectively with others.

While the Core allows you some freedom of choice, it includes guidelines which should provide coherence in your college education. The Core Curriculum prepares you to adapt to the ever-changing world by exposing you to a well-thought-out plan aimed at encouraging four years of intellectual and personal growth. The Core Curriculum consists of three parts: Foundation, Core I, and Core II.

Foundation Courses (7-9 courses, normally completed by end of sophomore year)

These courses are most directly related to the liberal education approach that is basic to La Salle's aims and traditions. Depending upon your previous preparation, you will take foundation courses in writing, literature, history, computer science, philosophy, science, religion, and social science. The writing and computer science courses are intended to give you the tools you need; the others will acquaint you with some of the best that has been written or thought in each field. The University may waive a writing course or a computer science course if your background so warrants.

Core I Courses (6 courses, normally completed by end of junior year) *Foundation courses may not satisfy this requirement unless required by your major department.*

These courses are an opportunity to build upon the foundations you have in place.

In Core I A, you take *three* courses in Religion and Philosophy (two in one subject and one in the other).

In Core I B, you also take a sequence of three courses in **one** of these:

- History
- Fine Arts (Art or Music)
- Foreign Languages (Classical languages, French, German, Italian, Russian, Spanish)
- Literature

Each sequence has been planned by the individual department to provide growth in the knowledge and skills of that subject.

Core II Courses (2 courses from a subject or combination of subjects listed below. May not be in your major subject or in the subject you chose for your Core I sequence.)

- Fine Arts (Art or Music)
- Foreign Language (Must be in same language.)
- History
- Literature
- Social Science (Economics, psychology, political science, sociology)

MAJOR REQUIREMENTS

Requirements for majors in each department are listed along with that department's course descriptions in this catalog.

FREE ELECTIVES

Students may choose to concentrate free electives in a particular discipline to build a minor or may use these electives to diversify their background or broaden their interests. Free electives may be taken on a pass/fail basis.

FOUNDATION COURSES

BIO 154 (F, S)

ECOLOGY AND ENVIRONMENTAL ISSUES

3 credits

Lectures, visuals, and demonstrations to introduce basic ecological principles and environmental issues from a scientific and sociological viewpoint. Topics include: ecosystems, trophic levels and food webs, populations, natural resources, and pollution. Three hours lecture, no laboratory.

BIO 156 (S)

HUMAN GENETICS

3 credits

Lectures, supplemented with visuals and demonstrations to illustrate the general principles of genetic transmission and their application. Discussion of currently developing technologies and procedures for genetic control which might have an impact on humans and of problems arising from gene and/or chromosomal abnormalities. Three hours lecture, no laboratory.

BIO 155 (F)

LIFE BEFORE BIRTH

3 credits

Lectures, visuals, demonstrations, and student investigation will illustrate the sequential formation of the human body from production of the reproductive cells, through fertilization and organ formation, to birth. In addition, common developmental problems and their causes will be discussed. Three hours lecture, no laboratory.

49

Required for Major in Biology: 17 courses

- BIO 201, 202, 203, 407-408, and additional biology courses to total a minimum of 33 hours (BIO 301 is recommended by the department; sequence may be decided by the student.)
- CHM 111-112, 201-202
- MTH 113-120 (BIO 314 may be substituted if MTH 120 is taken as first course.)
- PHY 105-106

(N.B. 100-level Biology courses and BIO 251 may not be used to fulfill Biology major requirements.)

BIO 161-162

ANATOMY AND PHYSIOLOGY

4-8 credits

A basic course in the structure and functioning of the human body with emphasis placed on the interrelationships of the major organ systems. Three hours lecture, two hours laboratory; two terms.

*Non-majors planning to elect biology courses above the 100 level must secure the permission of the chairman. BIO 201 is a prerequisite for all courses above the 200 level

BIO 201 (F, S)
PRINCIPLES OF BIOLOGY

4 credits

Integrated principles of modern biology; the attributes of life and hypotheses of its genesis; the continuity of life and its diversification; energy sources and the biological energy cycles; cells, organisms, and their structure and communities. *Required of all biology majors; normally taken as first major course; may be waived for advanced standing.* Prerequisite: CHM 111-112. Three hours lecture, two hours laboratory.

BIO 202 (F, S)
THE INVERTEBRATES

4 credits

Life processes, phylogenetic advances, and basic classification of the major pre-Chordate phyla with emphasis on their evolution and ecology. Three hours lecture, two hours laboratory.

BIO 203 (F, S)
THE PLANT KINGDOM

4 credits

Functional anatomy, phylogeny, and basic systematics of non-vascular and vascular plants. Three hours lecture, two hours laboratory.

BIO 251 (S)
CLINICAL MICROBIOLOGY

3 credits

The physical and chemical techniques available for the destruction of microbes; the prevention of microbial contamination; role of specific pathogens in the etiology of human disease processes; chemotherapeutic and antibiotic preparations available to assist the body mechanisms. Recommended for nurses. Two hours lecture, two hours laboratory.

BIO 301 (F, S)
THE VERTEBRATES

4 credits

Comparative systemic anatomy of the vertebrate classes; hypotheses of origin and radiation of the phylum Chordata. Laboratory dissections of representative Chordates from amphioxus to mammal. Two hours lecture, four hours laboratory.

BIO 303 (F, S)
MICROBIOLOGY

3 credits

A lecture-laboratory course concerned with the role of micro-organisms in nature and especially in human affairs. Two hours lecture, two hours laboratory; one term.

BIO 305 (F)
GENERAL PHYSIOLOGY

3 credits

Metabolic processes and associated physicochemical phenomena of living organisms. Current hypotheses of muscle, endocrine, neural, respiratory, cardiovascular, and nutritional physiology. Two hours lecture, two hours laboratory.

BIO 306 (S)
NEUROMUSCULAR PHYSIOLOGY

3 credits

A physiological study of cardiac, skeletal, and smooth muscle and their relationship to the central and autonomic nervous systems. Two hours lecture, two hours laboratory.

BIO 308 (F)
MICROTECHNIQUE

3 credits

Histochemical and cytological techniques associated with the preparation of animal and plant materials for microscopic study. One hour lecture, four hours laboratory.

BIO 310 (S)
GENETICS

3 credits

Mendel's laws of heredity as observed in plants and animals, the scope and method of modern genetics. Two hours lecture, two hours laboratory.

BIO 312 (F)
RADIOBIOLOGY

3 credits

Nuclear technology as applied to life sciences; theory, instrumentation, and use of radioactive isotopes in animals and plants. Two hours lecture, two hours laboratory.

BIO 314 (S)
BIOMETRICS

3 credits

Analysis of experiments and research data in quantitative biology. Probability distributions, analysis of variance, rectilinear and curvilinear regression, and correlation. Three hours lecture.

BIO 315 (S)
PLANT PHYSIOLOGY

3 credits

Metabolic and physical processes of plants. Emphasis on photosynthesis, photorespiration, mineral nutrition, transpiration, phloem transport, intermediary metabolism, and hormonal activity. Prerequisite: BIO 201; recommended prerequisite: BIO 203. Two hours lecture, two hours laboratory. Offered in the spring semester of odd-numbered years.

BIO 316 (S)
PLANT ANATOMY

3 credits

Structure of plant tissues and organs, particularly those of higher vascular plants. Emphasis on vegetative organs, but reproductive organs are discussed. Structure correlated with function and/or habitat. Prerequisite: BIO 201; recommended prerequisite: BIO 203. Two hours lecture, two hours laboratory. This course is offered in the spring semester of even-numbered years.

BIO 318 (F)
EVOLUTION AND POPULATION GENETICS

3 credits

A presentation and analysis of the evidence for the evolution of life. Major topics include the origin of life and cellular organelles as well as the development of the diversity of life present today. Heavy emphasis on the ideas of Charles Darwin as expanded and modified by evidence from modern population genetics, cytogenetics and molecular biology. Offered in fall term of odd-numbered years.

BIO 401 (F)
TAXONOMY OF THE ANGIOSPERMS

3 credits

Angiosperm systematics, field collecting and identifications; herbarium and greenhouse practice. Phylogeny, characteristics, and importance of the leading families of flowering plants. Offered in fall term of even-numbered years. Two hours lecture, two hours laboratory.

BIO 402 (F)
CELL BIOLOGY

3 credits

Physical properties, chemical structure, and metabolism of simple and specialized cells; recent advances in the techniques of cell culture and investigation. Two hours lecture, two hours laboratory.

BIO 403 (F)
PRINCIPLES OF ECOLOGY

3 credits

Basic concepts of ecological theory; physical and biotic factors affecting the evolution, behavior, and community organization of organisms. Three hours lecture with field observations.

BIO 404 (S)
FIELD ECOLOGY

3 credits

Project laboratory at La Salle Penllyn Biostation; supervised student research projects in terrestrial and aquatic ecology. Prerequisite: BIO 403. Six hours laboratory and field work.

BIO 405 (F, S)**HISTOLOGY**

4 credits

The minute and ultra structure of mammalian primary tissues together with their functional relationships in the formation of major organ systems; histological basis of function is stressed. Two hours lecture, four hours laboratory.

BIO 406 (F, S)**EMBRYOLOGY**

3 credits

Fundamental processes underlying vertebrate development and differentiation; the frog, chick, and human form the basis of instruction. Two hours lecture, two hours laboratory.

BIO 407-408**BIOLOGICAL CHEMISTRY**

4-8 credits

The principles of physical chemistry as they apply to biochemical reactions and the principal biochemical species and reaction sequences, the role of these reactions in specific biological functions. Laboratory application of techniques of analytical chemistry to analysis of biochemical reactivity. Three hours lecture, three hours laboratory; two terms.

BIO 470 (F, S)**SPECIAL TOPICS IN BIOLOGY**

3 credits

Presentation of review papers and discussions of assigned topics from main currents of biological research; participants to be recommended by department staff.

BIO 480-481 (F, S)**BIOLOGICAL RESEARCH**

2-4 credits

For election, particularly by qualified students contemplating postgraduate studies. Intended to provide actual research experience under staff supervision. Permission of chairman required. Hours to be arranged.

CHEMISTRY

THOMAS S. STRAUB, Ph.D., *Chair*
Associate Professors: Shalhoub, Straub
Assistant Professors: Cichowicz, Price
Lecturer: Polek

FOUNDATION COURSE**CHM 150 (F, S)****CONSUMER CHEMISTRY**

3 credits

A non-mathematical examination of the development of fact and theory in chemistry and the utilization of chemistry by society. Topics may include: energy, pharmaceuticals, environmental effects, food additives, and synthetic materials. No prior knowledge of chemistry required.

Required for Major in Chemistry: 15 courses

- CHM 111-112, 201-202, 301-302, 305, 401, 402, 403
- MTH 120, 221, 222 (It is strongly suggested that chemistry majors begin with Mathematics 120 as freshmen.)
- PHY 105-106 (PHY 211 is excellent preparation for CHM 301 and 302, but is not absolutely required.)
- The department suggests that all chemistry majors have at least 400 hours of lecture and 500 hours of laboratory work, CSC 150 and 153 or a reading knowledge of a foreign language,

some advanced work in chemistry (normally CHM 308 or 470), and some research experience are recommended. This additional work may qualify a chemistry major for accreditation by the American Chemical Society. The chemistry program is accredited by the American Chemical Society.

CHM 111-112

GENERAL CHEMISTRY

4-8 credits

A general course based on physical principles; emphasis on elementary thermodynamics with applications to gases, solutions, heats of reaction, electrochemistry, ionic and non-ionic equilibria. Concepts of elementary quantum mechanics applied to spectral concepts and the theory of the chemical bond. Reaction kinetics applied to reaction mechanisms. Descriptive chemistry of the representative elements and transition metal complexes. Laboratory stresses the quantitative aspects of chemistry. Three hours lecture, three hours laboratory.

CHM 151 (F)

CHEMISTRY OF THE LIFE SCIENCES

4 credits

A terminal course for students who wish to obtain a general knowledge of chemistry with emphasis on the processes in the body and in nature. Descriptive and some quantitative principles discussed. Three hours lecture, three hours laboratory.

CHM 201-202

ORGANIC CHEMISTRY

4-8 credits

Chemistry of carbon compounds with emphasis on structure, stereochemistry, synthesis and reaction mechanisms. Application in allied fields. Laboratory introduces techniques involved in organic synthesis, analysis, and study of reaction mechanisms. Intended for majors in chemistry, biology, and all students pursuing careers in the health professions. Prerequisites: CHM 111-112. Three hours lecture, three hours laboratory; two terms.

CHM 301-302

PHYSICAL CHEMISTRY

4-8 credits

Elementary principles of physical chemistry discussed and illustrated by suitable laboratory experiments. The ideal gas, real gases, liquids, solids, elementary thermodynamics, thermochemistry, solutions, equilibria, kinetics, electromotive force, electrical conductivity, and chemical thermodynamics. Prerequisites: CHM 201-202, MTH 221-222. Three hours lecture, three hours laboratory; two terms.

CHM 305 (F)

QUANTITATIVE ANALYSIS

4 credits

Neutralization, oxidation-reduction, chemical equilibria, colorimetry, and the methods of quantitative chemical analysis. Thorough training in volumetric, gravimetric, and colorimetric techniques. Three hours lecture, three hours laboratory. Prerequisite: CHM 112.

CHM 306 (S)

QUANTUM CHEMISTRY

2 credits

Quantum mechanics applied to the solution of some elementary systems. Discussion of chemical bonding. Introduction to elementary statistical mechanics using results derived from quantum mechanics. Prerequisites: CHM 301-302.

CHM 308 (S)

BIOCHEMISTRY

4 credits

The chemistry of carbohydrates, fats, proteins, vitamins, enzymes, and hormones; emphasis on their roles in biochemical processes. Laboratory work illustrates common techniques used to prepare, identify, and assay biochemical materials. Prerequisites: CHM 201-202, 301. Three hours lecture, three hours laboratory.

CHM 401 (F)

QUALITATIVE ORGANIC ANALYSIS

4 credits

A study of the classifying reactions of organic compounds as exemplified by the analysis of compounds and mixtures in the laboratory. *Restricted to chemistry majors.* Prerequisites: CHM 201-202. Eight hours of laboratory per week and individual conferences.

CHM 402 (S)

ADVANCED QUANTITATIVE ANALYSIS

4 credits

Theory and practice of physical measuring instruments with particular attention to the use of the instruments. Modern trends in analytical chemistry. Prerequisites: CHM 301, 302, 305. Two hours lecture, six hours laboratory.

CHM 403 (F)

ADVANCED INORGANIC CHEMISTRY

3 credits

The vector model of the atom, theoretical aspects of chemical bonding, descriptive chemistry trends relative to the periodic table, molecular structure and symmetry of molecules, and general discussion of the transition metals and their complexions. Prerequisites: CHM 201-202, 301-302.

CHM 404 (S)

ADVANCED ORGANIC TOPICS

3 credits

Designed to extend the knowledge of organic chemistry; emphasis on those topics not fully developed in the elementary course. An introduction to the literature of chemistry is also included. Prerequisites: CHM 201-202, 301. Three hours of lecture.

CHM 450 (F, S, Summer)

COOPERATIVE CHEMICAL EDUCATION

3 credits

A cooperative experience between the chemistry department and chemical industry to provide on-the-job training in fields relating to chemistry and industry. On approval of the chairman only.

CHM 470 (F, S)

SPECIAL TOPICS

3 credits

Courses in "Polymers and Polymer Coatings" and in "Chemical Marketing" are offered as Special Topics in the Evening Division and are open to day students.

CHM 480 and or 481 (F, S)

CHEMICAL RESEARCH

4-8 credits

Individual laboratory or theoretical work under supervision of a staff member. *Restricted to chemistry majors.* Hours to be arranged.

COMMUNICATION ARTS

GERARD F. MOLYNEAUX, F.S.C., Ph.D., *Chair*

Associate Professors: Goedkoop, Molyneaux

Assistant Professors: MacLeod, Wine

Lecturers: Lyons, McGoldrick, Perrello

Required for Major in Communication Arts: 15 courses

- COM 201, 202, 203, 204, 206, 301, 302 or 303, 304, 305, 401, 403, 404
- Three English electives (excluding: Foundation Courses, English 109, 160, 165, 166, 250-251, 300, 310, 461)

COM 201 (F, S)

INTRODUCTION TO MASS MEDIA

3 credits

Investigation of newspapers, magazines, radio, television, and film as mass media. Influence of the medium on content. Internal and external efforts at regulation.

COM 202 (F, S)

INTERPERSONAL COMMUNICATION

3 credits

Through lectures, demonstrations, and laboratory experiences, students learn current theories of communication and improve their skills in communicating personally and through media. Group and individual analysis of the dynamics of communication processes.

COM 203 (F, S)**MEDIA: DESIGN AND PRODUCTION**

3 credits

Analysis and production of visual communication through still photography, television, and film to develop skills in perception and composition of visual communication.

COM 204 (F, S)**FILM AS ART**

3 credits

Screening of films by outstanding American and foreign directors: Hitchcock, Welles, Bergman, Kurosawa, Kubrick, Allen, Scorsese and others. Study of how the films were created, of how we may analyze them, and of how the art of film has changed through history.

COM 206 (F, S)**FUNDAMENTALS OF JOURNALISM**

3 credits

Reporting and interviewing techniques, news writing, copy editing and headline writing, the editorial, the feature story, newspaper makeup and design, libel, and the responsibility of the press. Two hours lecture, one hour of field assignment weekly.

COM 301 (F, S)**BROADCASTING IN AMERICA**

3 credits

A study of the structure of broadcasting in America and of its interaction with society. Prerequisite: COM 201.

COM 302 (F)**BROADCAST NEWSWRITING**

3 credits

Introduction to and application of news writing for radio and television, including hard news, features, and documentary formats.

COM 303 (S)**SCRIPTWRITING**

3 credits

Introduction to and application of scriptwriting techniques in formats appropriate for the media of radio, television, and film.

COM 304 (F, S)**RADIO PRODUCTION**

3 credits

Introduces students to the fundamental theories and practices of radio production. Topics include: arranging the programming day; scripting news, dramatic and commercial presentations; training of personnel for actual programming. Prerequisite: COM 203.

COM 305 (F, S)**TELEVISION PRODUCTION**

3 credits

Introduction to the planning, production, and editing methods of electronic communication. Includes pre-production scripting and participation in production of videotaped television shows. Prerequisite: COM 203.

COM 401 (F, S)**ADVERTISING AND PUBLIC RELATIONS WRITING**

3 credits

How to write copy for print advertising and press releases, with an emphasis on creativity. The marketing process, campaign strategy, and advertising research. Preparation of a total campaign, requiring oral and written presentations in either advertising or public relations.

COM 403 (F, S)**FILM SEMINARS**

3 credits

The motion picture as industry, as historical record, and as art. Among topics offered: documentary film, film comedy in America, film theory and criticism, film history, the great directors. Prerequisite: COM 259 or permission of instructor.

COM 404 (F)**BROADCAST SEMINARS**

3 credits

Broadcast Regulation and Law, Future Technologies, and Communication Theories are offered as separate broadcast seminar topics. Junior and Senior students may select one or more of these topics for their seminar course(s).

COM 450**COOPERATIVE EDUCATION**

3 credits

Consult with department chairman. Prerequisite: junior or senior standing.

COM 461 (F, S)**INTERNSHIP**

3 or 6 credits

Students may intern at advertising, public relations, publishing and broadcasting companies. Working approximately 15 hours a week under professional supervision, they learn how to apply their education to the everyday demands of these positions. Required: Junior or senior standing, 2.75 grade point average, and recommendation of the chairman.

COM 462 (F, S)**INTERNSHIP**

6 credits

Intern will work approximately 25-30 hours per week.

ECONOMICS

RICHARD T. GERUSON, Ph.D., *Chair*
Professors: Ciesla, Flubacher, Kane, Mooney
Associate Professors: Duffy, Geruson, Grady
Assistant Professors: Cairo, George, Ratkus

FOUNDATION COURSE**ECN 150 (F, S)****INTRODUCTORY ECONOMICS I**

3 credits

A study of the economic system, including a comparison of market and command economies and consideration of the influence of government policies on economic activity. Emphasis on the U.S. economy and factors which determine employment, inflation, gross national product, and the money supply. A prerequisite for other economics courses except ECN 230.

Required for Major in Economics: 15 courses

- ECN 150, 201, 202, 203, 213, 214, 303, 304, 411, 412, 480
- MTH 111-112 (MTH 113, 120, 240 recommended in preparation for graduate school)
- Two courses in the social sciences (psychology, political science, or sociology).

ECN 201 (S)**INTRODUCTORY ECONOMICS II**

3 credits

An introduction to microeconomic theory. Topics include: economic problems of the business firm; economic growth of society; urban problems associated with economic growth; economic approaches to ecological issues; international trade issues; economic problems of poor countries.

ECN 202 (F)
MONETARY ECONOMICS 3 credits

A study of the monetary and financial system of the U.S. economy. Emphasis on the importance of the money supply, the demand for money, and interest rates, along with more recent developments in the study of monetary variables. Instruments of monetary policy discussed and evaluated in the context of contemporary economic theory; the position of the American financial system in the international financial network. Prerequisites: ECN 150, 201.

ECN 203 (S)
AMERICAN ECONOMIC HISTORY 3 credits

Analyzes long-term economic growth and development since 1600. Stresses demographic, technological, institutional factors interacting with the market system. Covers imperialism, slavery, industrialization and urbanization, role of government, rise of service economy. Applies basic economic questions and theories of growth to developmental questions.

ECN 213 (F, S)
ECONOMICS AND BUSINESS STATISTICS I 3 credits

Identical with QNT 213.

ECN 214 (F, S)
ECONOMICS AND BUSINESS STATISTICS II 3 credits

Identical with QNT 214.

ECN 230 (F, S)
THIRD WORLD POVERTY AND ECONOMIC DEVELOPMENT 3 credits

An analysis of the causes of poverty in underdeveloped countries. Theories of development and policies to promote development emphasized. Social, political, cultural factors, and relations with rich countries also treated.

ECN 231 (F)
INTERNATIONAL ECONOMICS 3 credits

An introduction to the theory of international exchange, to natural and policy barriers to trade, to relations between developed and developing countries, and to international disequilibrium. Stress on the evolution of the international monetary system and selected current problems such as balance of payments, exchange standards, liquidity, and the role of international institutions.

ECN 301 (F, S)
LABOR PROBLEMS IN AMERICA 3 credits

Study of the sources of the union movement, its history, structure, and functions. Attention to the development of economic, political, and social power, as well as to the problems involved in the use of this power; management rights and management reaction to unions are also treated. Prerequisites: ECN 150, 201. Identical with PLR 301.

ECN 302 (F, S)
MANAGERIAL ECONOMICS 3 credits

Forms of competitive behavior, uses of marginal cost analysis, pricing techniques, and profit and demand measurement and forecasting. The process of evaluating alternative business solutions and tentatively formulating policies. Prerequisites: ECN 150, 201; MTH 111-112 and QNT 213.

ECN 303 (F)
INTERMEDIATE MICRO THEORY I: PRICE THEORY 4 credits

Theory of consumer behavior, production, and cost. Price determination of products in various market models and of factors of production. Welfare economics. Prerequisites: ECN 150, 201.

ECN 304 (S)
INTERMEDIATE MACRO THEORY II: THEORY OF EMPLOYMENT, GROWTH, AND FLUCTUATIONS 4 credits

Theory of the level of income and employment. Theories of economic growth, traditional and modern. Theories of economic fluctuations, stabilization policies, and forecasting. Prerequisites: ECN 150, 201.

ECN POL 320 (F)**INTRODUCTION TO URBAN STUDIES**

3 credits

Interdisciplinary analysis of cities and urbanization. Examines comparative cause and effect patterns. Places the American experience in long run, world perspective. Stresses the post-1920 metropolitanization and how resultant urban problems interact with wider social and economic forces. Prerequisites: 6 hours of social science.

ECN POL 321 (S)**SEMINAR IN URBAN STUDIES**

3 credits

Analyzes social and economic policy decisions towards urban America since World War II. Urban finance, housing, crime, schooling, transportation, and selected other areas examined. Includes evaluation of limits, directions, and mix of government and private sectors. Prerequisites: 6 hours of social science.

ECN 404 (S)**PUBLIC FINANCE**

3 credits

An analysis of the revenue and expenditure activities of government with particular emphasis on the rationale of this government activity, the method of financing, and the effects of fiscal policy on allocation, distribution, efficiency, equity, and stability in the economy. Prerequisites: ECN 150, 201.

ECN 411 (F)**HISTORY OF ECONOMIC THOUGHT**

3 credits

A detailed study of the leading economic concepts and schools of economic thought from the mercantilists up to and including Alfred Marshall.

ECN 412 (S)**CONTEMPORARY ECONOMIC SYSTEMS**

3 credits

A continuation of ECN 411 until Keynesian economics has been treated; a history and analysis of socialist and Marxist thought culminating in a comparative study of the structure and function of the economies of the United States and the Soviet Union.

ECN 470 (S)**SPECIAL TOPICS**

3 credits

Concentration on a particular aspect of economic theory or economic issues. Topics will vary according to student interest and availability of faculty.

ECN 480 (F, S)**SEMINAR**

3 credits

A study of methodology in economics and of the techniques of preparing research reports.

EDUCATION

PRESTON FEDEN, Ed.D., *Chair*

ROBERT VOGEL, Ed.D., *Director of Elementary and Special Education*

LAWRENCE COLHOCKER, F.S.C., Ed.D., *Director of Secondary Education*

GARY CLABAUGH, Ed.D., *Director of Graduate Education*

Associate Professors: Bangs, Binkowski, Clabaugh, Feden, Lambert

Assistant Professors: Colhocker, Schoen, Vogel

Major in Education

La Salle University offers teacher preparation programs in secondary, elementary and special education (see below). These programs are approved by the Pennsylvania Department of Education and lead to a B.A. degree and recommendation for Instructional I certification in the area(s) chosen by the certification candidate.

Students may declare a major in education in the freshman year. Because of the nature of the requirements for certification, declaring the major as early as possible is highly recommended.

Application for admission to candidacy for certification is made at the end of the sophomore

year. In order to be admitted to candidacy, students must present evidence of having passed the Basic Skills and General Knowledge portions of the Pennsylvania Teacher Certification Tests, must have an overall index of at least 2.0, and an index of 2.5 or better in all education course work. Secondary education majors must also have a 2.5 or better in the associated major (English, Mathematics, Chemistry, etc.).

Before being accepted into the Professional Semester (Secondary Education majors) or the Professional Year (Elementary and Special Education majors) students must be recommended by the Education Department faculty. Recommendations are predicated upon successful completion of all course requirements with the indexes specified above and on the fitness of the individual for the professional position he or she has selected.

Upon successful completion of the Professional Semester or the Professional Year, a student may apply for Instructional I certification. State certification regulations require that an applicant for a teacher's certificate be known by the preparing institution as a person of good moral character, possessing personal qualities, professional knowledge, and pedagogical competencies which warrant issuance of a teacher's certificate (School Laws of Pennsylvania, Article XII). In addition, all applicants must meet certain physical and medical standards to obtain an Instructional I certificate to teach in the public schools of Pennsylvania.

Anyone applying for a first Instructional Certificate after June 1, 1987 will be required by State Board regulations to pass Pennsylvania Teacher Certification Tests in Basic Skills, General Knowledge, Professional Knowledge, and in the Specialty Area of certification. Some states may also require prospective teachers to take the National Teacher Exams.

Students not majoring in education are invited to register for education courses that carry no prerequisites. For further information, see Dr. Preston Feden, Chair (Olney 254).

Requirements for Major in Secondary Education:

- EDC 102, 203, 204, 301, 470-471-472
- EDC 218 (required of Comprehensive Social Studies majors)
- EDC 304 (required of English Education majors)
- Courses designated for associated major (See Education Department brochure and area advisers for specific courses.)

La Salle University offers a program of studies that is approved by the Pennsylvania Department of Education and leads to recommendation for Instructional I certification in Comprehensive Social Studies, Communications (Non-Print media), English, Earth and Space Sciences, Biology, Chemistry, Physics, Mathematics, French, German, Italian, Latin and Spanish. (Foreign language students are certified to teach K-12.) For further information, see Brother Lawrence Colhocker, Director of Secondary Education (Olney 253).

Requirements for Major in Elementary and Special Education:

- EDC 101, 102, 201, 203, 204, 217, 218, 301, 302, 304, 343, 344, 475-476

La Salle University offers a unique program of studies that is approved by the Pennsylvania Department of Education and which leads to recommendation for Instructional I certification as an Elementary Educator, a Teacher of the Mentally and/or Physically Handicapped (K-12), or both. The Mentally and/or Physically Handicapped certificate enables successful graduates to teach severely/profoundly, trainable, and educable mentally retarded children; emotionally disturbed children; learning disabled children; physically handicapped children; and brain damaged children. The elementary certificate allows graduates to teach non-handicapped students in grades K-6. All elementary and special education majors must meet with a department faculty member during each preregistration period throughout the entire four-year program. This insures that all students are following the prescribed sequence of courses leading to a degree and to certification.

For further information, see Dr. Robert Vogel, Director of Elementary and Special Education (Olney 255).

Requirements for Master of Arts in Education:

See Dr. Gary Clabaugh, Director of Graduate Education (Olney 258).

Requirements for Major in Business Education:

See chairperson of Education Department (Olney 254).

Religion-Education:

This program has been designed for those students who wish to teach religion in the secondary school. Since religion is not an accredited subject in any state, no Pennsylvania Instructional Certificate can be issued.

Courses required:

- EDC 203, 204, 301, 470-471-472
- Courses designated by the Religion Department.

EDC 101 (F, S)

THE ROLE OF THE DEVELOPMENTALLY-ORIENTED TEACHER

3 credits

A field-based introduction to the various roles teachers play in American education. Reflective teaching experiences. Two hours per week in-field activity.

EDC 102 (F, S)

FOUNDATIONS OF EDUCATION: A DEVELOPMENTAL PERSPECTIVE

3 credits

Provides a basic understanding of the historical, sociological, political, philosophical, natural scientific and comparative foundations of the schooling process. Also highlights current issues in education and outlines certification practices and procedures.

EDC 201 (F, S)

HUMAN EXCEPTIONALITY

3 credits

A study of human exceptionality, which is actually a study of being human. Examines methods used to label people, reasons why we label, and effects that labelling may have on a person, all from a multi-disciplinary perspective. Each area of exceptionality is defined and studied in terms of characteristics, causes, prevention, and intervention strategies.

EDC 203 (F, S)

EDUCATIONAL PSYCHOLOGY I: LEARNING AND DEVELOPMENT

3 credits

Study of psychological principles as they apply to the pupil in both formal and informal instructional settings. Emphasis on the analysis of human development and learning theory from an educational perspective as well as on the implications of that theory relative to the learner, the learning process, and the instructional environment. Addresses the concerns of teachers and other professionals involved in educational and other human services. Topics: teaching as an art and science; the nature and principles of human development; the cognitive, moral, and social development of the learner; and the nature of behavioral and cognitive learning theories.

EDC 204 (F, S)

EDUCATIONAL PSYCHOLOGY II: CURRICULAR AND INSTRUCTIONAL APPLICATIONS

3 credits

Assuming the student's knowledge of human development and learning theory, this course focuses on curricular and instructional applications of that theory. Topics: curricular and instructional design, modes of instruction, the transfer and retention of learning, the motivation of learners, classroom management, individual differences, learners with special characteristics, educational tests and measurements, and the evaluation of student performance. Field experience required (Two hours each week). Prerequisite: EDC 203.

EDC 217 (F, S)

MATHEMATICS FOR TEACHERS

3 credits

A laboratory approach helps the prospective teacher understand how children learn, do, and understand elementary mathematics. Recent research examined to identify strategies that may resolve or prevent difficulties in learning mathematics.

EDC 218 (F, S)
GEOGRAPHY

3 credits

An examination of our earth: explains the planet's physical phenomena, highlights the relationship between people and their environment, and explores the pedagogical uses of this discipline for curriculum development. Required for majors in Comprehensive Social Studies, Elementary and Special Education; open to non-majors.

EDC 301 (F, S)
GENERAL METHODS AND CLASSROOM MANAGEMENT

3 credits

Methods of teaching pupils within the framework of a student-centered rather than a teacher-centered curriculum. Focus on elements of the decision making process such as lesson planning, writing instructional objectives, questioning techniques, concept development, education procedures, and classroom management strategies. Prerequisites: Junior standing and acceptance into candidacy for certification, or permission of chair.

EDC 302 (F, S)
INSTRUCTIONAL MEDIA AND TECHNOLOGY

3 credits

Focuses on helping prospective teachers incorporate the modern technologies of instruction into their classroom practices. Emphasis on the impact of those technologies on human growth and development, and the ways that teachers can most effectively use them to bring about learning. Includes media design and production, still photography, television, and computers.

EDC 304 (F, S)
DEVELOPMENTAL READING

3 credits

Provides an understanding of the developmental nature of the reading process and its relationship to the other language arts. Prerequisites: Junior standing and acceptance into candidacy for certification, or permission of the chair.

EDC 330 (F, S)
THE EDUCATION OF URBAN POPULATIONS

3 credits

A multidisciplinary examination of the social, economic, political, and demographic aspects of urban populations as they affect formal education. Identical with POL 330.

EDC 343 (F, S)
**DEVELOPING AND ADJUSTING INSTRUCTION TO MEET THE NEEDS OF
ELEMENTARY AND SPECIAL NEEDS LEARNERS**

3 credits

Designed to help the prospective elementary and special education teacher effectively modify and individualize instruction for children with a wide range of learning needs and at varying levels of development in both academic and non-academic areas. Involves the application of relevant theoretical concepts and principles of educational psychology. In-field tutoring required (Two hours a week). Prerequisites: Junior standing and acceptance into candidacy for certification, or permission of the chair.

EDC 344 (F, S)
**ASSESSING THE LEARNING ABILITIES AND DISABILITIES OF ELEMENTARY
AND SPECIAL NEEDS LEARNERS**

3 credits

Enables prospective teachers to identify learning abilities and disabilities of handicapped and non-handicapped children so that they may develop appropriate instruction that maximizes the probability that learning will occur. Focuses on both process and content areas. Evaluation of outcomes of instruction based on assessment. Field work required (Two hours a week). Prerequisites: Junior standing and acceptance into candidacy for certification, or permission of the chair.

EDC 470 (S)**THE PROFESSIONAL SEMESTER—STUDENT TEACHING**

9 credits

Provides the secondary education major with full time student teaching experience in a selected junior or senior high school. Under the direction of a certified cooperating teacher and a university supervisor, the student teaches for twelve weeks on a five-day-a-week, full day schedule. The student teaching experience is supplemented by a series of topical seminars. The student is required to make formal application to the student teaching program. Taken concurrently with EDC 471 and 472. Prerequisites: field experiences in education; EDC 102, 203, 204, and 301; and the approval of associated major and education departments.

EDC 471 (S)**THE PROFESSIONAL SEMESTER—EDUCATIONAL MEDIA**

3 credits

Application of appropriate media formats in educational and instructional settings. Emphasis on media design and production, use of overhead transparencies, still photography, drymounting, audio tapes, multimedia presentations, and television programs. Computers in education will also be examined. Taken concurrently with EDC 470 and 472. Prerequisite: acceptance into EDC 470.

EDC 472 (S)**THE PROFESSIONAL SEMESTER—SPECIAL METHODS**

3 credits

Topics: historical and current issues related to teaching of the subject, innovative approaches, computer applications, print and non-print materials related to the subject, curriculum developments in the field, issues of human development as they relate to teaching the subject, information resources and data bases in the subject, and teaching of reading and writing in the field.

EDC 475 (F, S)**THE PROFESSIONAL YEAR—STUDENT TEACHING**

18 credits

Elementary and Special Education majors engage in student teaching under the guidance of experienced teachers and University supervisors over the course of the entire academic year. Exposure to various populations of handicapped and non-handicapped pupils is provided at different practicum sites. Prerequisites include acceptance into candidacy for certification, completion of all courses required for major with a 2.5 average or better, a 2.0 overall index, and approval of the faculty.

EDC 476 (F, S)**THE PROFESSIONAL YEAR—METHODS**

12 credits

Course modules reflect the seven basic skills of teaching: direct instruction, content areas, child development, material usage, behavior management, instructional planning, and human relations. Special emphasis on the use of direct instruction and behavior management with populations ranging from non-handicapped to severely handicapped children. Taken concurrently with EDC 475. Prerequisite: acceptance into EDC 475.

ENGLISHJAMES A. BUTLER, Ph.D., *Chair**Professors:* Burke, Butler, Ellis, Fallon, Keenan, Koch, Millard, Seydow*Associate Professors:* Doran, Haberstroh, Hannum, Harty, Kleis, Lautz,

Mollenhauer, Musil, Newton, Soven

Assistant Professors: Allen, Foote, Kling, Rao*Lecturers:* Meredith, Zenner**FOUNDATION COURSES (Writing)****ENG 107 (F, S)****COLLEGE WRITING I**

3 credits

Instruction in the writing process, in invention, and in necessary grammatical and organizational skills. Emphasis on writing from personal experience.

ENG 108 (F, S)**COLLEGE WRITING II**

3 credits

Instruction in planning and executing writing assignments common to all disciplines. Emphasis on essays about readings and on the library paper. Prerequisite: ENG 107 or waiver of it.

FOUNDATION COURSE (Literature)

ENG 150 (F, S)

THE LITERARY EXPERIENCE

3 credits

Reading, analysis, and discussion of the three prominent forms of literary expression—drama, poetry, and prose fiction—with attention to the cultural context of works written from the ancient world to the present. Short critical papers, some requiring use of secondary sources.

Required for Major in English: 15 courses (Dual Majors: 10 courses)

English majors may choose one of several “majors within the major”: (1) Liberal Arts; (2) English-Education; (3) Writing; (4) Dual Majors, e.g., English-Accounting, English-Biology, English-Psychology. English majors may intern at advertising, public relations, publishing, and newspaper positions. See course description under ENG 461 for requirements.

The usual requirements for each program are as follows: (Exceptions require the approval of the chair or assistant chair.)

- **Liberal Arts:** ENG 201, ENG 202, Either ENG 311, 312, or 313, ENG 221-222, Either ENG 341, 342, or 343, Three period courses (322, 323, 326 through 332), ENG 325, Either ENG 301, 302, 304, 401, or 402, Four English electives (not to include 107, 108, 109, 150, or any 160-level course).

Students applying for academic credit for study of an instrument (limited to keyboard, classical guitar, and all instruments of the standard symphony orchestra) or voice must demonstrate the ability to undertake such study at least at an intermediate level. Arrangements to work with a teacher of the applicant's choice and the financial obligations for such study are the responsibility of the student. At the close of the semester in which the student is applying for credit, the teacher will submit a written report on the student's progress. The student will demonstrate his or her accomplishment in a proficiency performance arranged by the department and will be graded on a credit/no credit basis. Upon successful demonstration of achievement the student will receive one academic credit, which will count as elective credit and will not be counted toward the major. A permissible total of six credits will be allowed.

Students wishing to apply for applied music credit may register for MUS 151 upon approval of the department.

Collegium Musicum

A vocal and instrumental performing ensemble devoted to the study of musical repertory of all periods which is designed for small groups.

RUS 301 (F)**ADVANCED GRAMMAR AND CONVERSATION**

3 credits

Advanced grammar exercises and conversation. Reading of a Russian newspaper.

RUS 302 (S)**SCIENTIFIC RUSSIAN**

3 credits

Theory and practice in translating scientific texts. Selected readings in chemistry, physics, mathematics, geology, anatomy, and astronomy.

RUS 303-304**ADVANCED READINGS AND COMPOSITION**

3-6 credits

Selected readings of 19th and 20th century Russian prose and verse. Translation of selected scientific articles. Intensive exercises in translating standard English prose into Russian.

RUS 401 (F)**HISTORY OF THE RUSSIAN LANGUAGE**

3 credits

Historical background for an understanding of the phonology, morphology, syntax, and vocabulary of modern Russian.

RUS 402 (S)**OLD RUS' LITERATURE**

3 credits

Selected readings from the epic, annalistic, and hagiographic literature from the 11th to the 17th centuries with special emphasis on *Igor Tale* and the *Primary*, *Kievan*, and *Galician-Volynian* chronicles. The beginnings of fiction.

RELATED STUDIES:**SLA 320 (S)****THE CULTURES OF THE PEOPLES OF THE SOVIET UNION**

3 credits

Lectures and readings on seventeen major Soviet nationalities: the fifteen which have their own Union Republics, plus the Tatars and the Jews. An in-depth view of the territory, demography, culture, media, education, language, and national attitudes of the various peoples of this multinational state.

SLA 403 (F)**UKRAINIAN**

3 credits

The study of the phonology, morphology, syntax, and vocabulary of a second Eastern Slavic language, Ukrainian, by noting the differences that exist between it and Russian.

SLA 404 (S)**POLISH**

3 credits

The study of the phonology, morphology, syntax, and vocabulary of a Western Slavic language, Polish, by noting the differences that exist between Polish, Russian, and Ukrainian.

SPANISH**Required for Major in Spanish: 14 courses**

- SPN 311-312, 313
- Seven Spanish electives (two from 400 list)
- Four courses in second language
- Recommended: History 131, 132

SPN 101-102**ELEMENTARY SPANISH**

3-6 credits

Designed to provide a fundamental capacity in conversation; audio-oral method employed. Grammar is presented strictly on a functional basis to facilitate speech and comprehension. One required hour per week in the Language Laboratory.

SPN 201-202 (F, S)**INTERMEDIATE SPANISH**

3 credits

Review exercises in comprehending, speaking, reading, and writing Spanish. Cultural information on Spanish-speaking countries. Weekly assignments in the Language Laboratory.

SPN 301-302
ADVANCED CONVERSATION AND COMPOSITION 3-6 credits

Includes intensive oral and written exercises with a view towards improving the student's speaking and writing skills. Students make frequent use of audio aids.

SPN 307 (F, S)
COMMERCIAL SPANISH 3 credits

Intended to acquaint the student with commercial Spanish terminology combined with lectures, readings, and translations of business letters. Introduction of new vocabulary used in the business world with emphasis on Spanish American idiomatic expressions.

SPN 311-312
SURVEY OF SPANISH LITERATURE 3-6 credits

An introduction to the study of peninsular Spanish literature from the Middle Ages to the present. Readings and discussions in Spanish.

SPN 313 (F, S)
SURVEY OF SPANISH AMERICAN LITERATURE 3 credits

Reading and discussion of works from the colonial period to the 20th century, with special emphasis upon contemporary Latin American literature.

SPN 321 (F)
SURVEY OF SPANISH CIVILIZATION 3 credits

A cultural and historic study of Spain's past, examining the effects of Rome and Islam, the period of Spanish domination and later decline, and the status of present-day Spain.

SPN 322 (S)
SURVEY OF SPANISH AMERICAN CIVILIZATION 3 credits

A cultural and historic presentation of the diversity of Latin America from the Aztecs and Incas to the Conquest, the viceroyalties, and the establishment of independent nations; course concludes with a thorough study of today's Latin America.

SPN 350-351
INTRODUCTION TO BILINGUAL-BICULTURAL STUDIES 3-6 credits

Linguistic and cultural problems in teaching English to speakers of other languages. Emphasis on materials, techniques and attitudes of teachers and students. Special emphasis on the vocabulary and idiom of the Caribbean. Cultural survey of present day problems in Puerto Rico and other Caribbean countries.

SPN 401 (F)
HISTORY OF THE SPANISH LANGUAGE 3 credits

Study of the formation of the language, its evolution and phonetic changes from Latin to the present modern pronunciations. Reading and discussion of the early Spanish texts and the development of the language in the early period.

SPN 405 (F, S)
LITERATURE OF THE MIDDLE AGES 3 credits

Emphasis is placed on such works as *Cantar de Mio Cid*, *Poema de Fernan Gonzalez*, and *Amadis de Gaula*; authors include Berceo, Alfonso X, Juan Manuel, Juan Ruiz, Marques de Santillana, and los Manrique.

SPN 411 (F, S)
RENAISSANCE LITERATURE 3 credits

The works of Boscan, Garcilaso, Encina, Nebrija, Torres Naharro, and Lope de Rueda, and such works as *Tirant lo Blanc*, *Celestina*, and *Lazarillo de Tormes* form the basis of this period of literary activity.

SPN 415 (F, S)
DRAMA OF THE GOLDEN AGE 3 credits

Readings, reports, and discussions of the principal dramatists of the Golden Age: Lope de Vega, Tirso de Molina, Calderon, Alarcon, and others.

SPN 419 (F, S)**CERVANTES**

3 credits

Readings and discussions of *Don Quixote*. Other important works by Cervantes also discussed.

SPN 442 (F, S)**ROMANTICISM**

3 credits

A study of the early 19th century which analyzes works of such authors and poets as Larra, Duque de Rivas, Zorrilla, Espronceda, Garcia Gutierrez, Hartzenbusch, and Becquer.

SPN 443 (F, S)**POETRY OF THE 19th AND 20th CENTURIES**

3 credits

Works by Gabriel y Galan, de Castro, Dario, los Machado, Jimenez, Lorca, Guillen, Otero, and Salinas are considered.

SPN 448 (F, S)**THE SPANISH AMERICAN NOVEL**

3 credits

Introduces students to the development of the contemporary Latin American novel through an analysis of the sociological and literary aspects of the work of various leading authors. Special attention to works by and about women. Class discussions and examinations in Spanish.

SPN 457 (F, S)**THE SPANISH NOVEL OF THE 19th AND 20th CENTURIES**

3 credits

Reading and discussion of Spanish authors, their ideology and philosophies: Fernan Caballero, Galdos, Valera, Pio Baroja, Ala, Cela, Delibes, and Goytisolo.

SPN 480 (F, S)**SEMINAR**

3 credits

Topics of investigation vary from semester to semester.

GEOLOGYH. A. BART, Ph.D., *Chair**Associate Professors: Bart, Hoersch***FOUNDATION COURSES****GEO 151 (F, S)****PLANET EARTH**

3 credits

An introduction to the physical processes that interact to change the interior and the surface of the earth, including weathering, earthquakes, volcanoes, glaciation, marine erosion, "Continental Drift," and mountain building. Two hours lecture, two hours laboratory and field trip.

GEO 152 (F, S)**EARTH HISTORY**

3 credits

An introduction to the physical and biological processes that have modified the earth through geologic time. Emphasis will be on earth changes through geologic time, and the evolution of life from simple cells to the higher vertebrates. Laboratory experience will include study of fossils, and basic geologic principles. Two hours lecture, two hours laboratory, and field trip.

GEO 153 (F, S)**OCEANOGRAPHY**

3 credits

A study of the physical processes that affect the oceans of the earth. Emphasis will be on tides, currents, waves, chemistry of the sea, and geology of ocean basins. Three hours lecture.

GEO 154 (F, S)**ASTRONOMY**

3 credits

A contemporary view of the universe from the big bang to its possible ends, our sun and its planets, galaxies, the life and death of stars, white dwarfs, neutron stars, quasars, black holes, life on earth, and the possibility of extraterrestrial intelligence.

Required for Major in Geology: 15 courses

- GEO 151, 152, 202, 203, 204, 205, 302, 303, 401, plus three elective geology courses at the 200 level or above.
- CHM 111-112. MTH 113.
- Suggested courses: Students anticipating graduate work in geology or closely related areas are advised to elect courses in basic sciences, mathematics, computer science, Russian, German, or French.

GEO 202 (F)

MINERALOGY AND CRYSTALLOGRAPHY

4 credits

The identification of minerals using physical characteristics. An introduction to crystal chemistry and symmetry. Three hours lecture, two hours laboratory. Prerequisites: GEO 151, 152.

GEO 203 (S)

OPTICAL MINERALOGY

4 credits

An introduction to the theory of light transmission in crystals. Use is made of the polarizing microscope to study light phenomena in minerals. Lab is concerned with identification of minerals using thin section and oil immersion techniques. Two hours lecture, four hours laboratory. Prerequisite: GEO 202.

GEO 204 (S)

PETROLOGY

4 credits

Descriptive classifications of textures and processes of igneous, metamorphic, and sedimentary rocks with emphasis on hand specimen identification. Three hours lecture, two hours laboratory. Prerequisite: GEO 202.

GEO 205 (F)

PALEONTOLOGY

3 credits

A review of the invertebrate and vertebrate fossil record. Correlation of biological development with the stratigraphic record. Includes recent advances in paleoecology. Two hours lecture, two hours laboratory.

GEO 301 (S)

STRATIGRAPHY

3 credits

An introduction to physical stratigraphy, methods of correlation of rock and time rock units; the interpretation of paleogeography. Two hours lecture, two hours laboratory.

GEO 302 (F)

SEDIMENTOLOGY

4 credits

Analysis and interpretation of sedimentary processes; classification and analysis of the common sedimentary rocks. Three hours lecture, three hours laboratory.

GEO 303 (F)

STRUCTURAL GEOLOGY

4 credits

Description and mechanics of structural features such as: folds, joints, faults, lineations and foliations features. Laboratory is concerned with problem solving using geometric and stereographic techniques, cross-sections, and the examination of tectonic forces that cause deformation. Three hours lecture, two hours laboratory. Prerequisites: MTH 113, GEO 151, 152, 202, 204.

GEO 304 (S)

GLOBAL TECTONICS

3 credits

A review of the literature on the theory of plate movement and study of the dynamic earth system with implications as to the origins of magma, earthquakes, and sea-floor spreading. Three hours lecture, one hour laboratory. Prerequisites: GEO 151, 152.

GEO 305 (S)**GEOCHEMISTRY**

3 credits

Discussions of the geochemical behavior of the elements comprising the earth. A look at the chemical processes involved with weathering, oxidation, and the crystal chemistry of solids with application to the formation of stable compounds (phase theory). Three hours lecture. Prerequisites: CHM 111-112; GEO 151, 152, 202.

GEO 401 (F)**IGNEOUS PETROLOGY**

4 credits

Classification, examination, and analysis of igneous rocks. Petrographic analysis of rock suites in thin section will be used to determine the cooling histories of the rocks. Two hours lecture, four hours laboratory, field trips. Prerequisites: GEO 202, 203, 204; CHM 111, 112.

GEO 402 (S)**METAMORPHIC PETROLOGY**

4 credits

A review of the metamorphic facies concept with a look at the physical, thermodynamic, and geochemical processes concerned with mineral recrystallization. Detailed thin-section examination of the various metamorphic zones. Two hours lecture, four hours laboratory, field trips. Prerequisites: GEO 202, 203, 204; CHM 111, 112.

GEO 403 (S)**ECONOMIC GEOLOGY**

3 credits

The study of ore deposits associated with igneous, metamorphic, and sedimentary rocks. Emphasis on classical ore deposits. A survey of the various origins for metallic and non-metallic deposits. Three hours lecture. Prerequisites: GEO 202, 204; CHM 111, 112.

GEO 470 (F)**TOPICS IN ADVANCED GEOLOGY**

3 credits

Selected topics dealing with contemporary developments in geology.

GEO 480 (F, S)**RESEARCH**

1-4 credits

Supervised research in geology. Can be elected in fall, spring, or summer. Permission of chairman required.

HIISTORY

GEORGE B. STOW, Ph.D., *Chair*

Professors: O'Grady, Rossi, Stow

Associate Professors: Cziraky, Fair, Hennessy, Labunka, McCarthy

FOUNDATION COURSE**HIIS 150****GLOBAL HISTORY**

3 credits

Through a study of the evolution and interactions of the cultures of Europe, America, Africa, and Asia from 1500 to the present, students will develop a greater understanding of the relationships among modern nations, so necessary in today's shrinking globe.

Required for Major in History: 14 courses

- Three from each section, plus a two-semester seminar.

SECTION I: INTRODUCTORY COURSES

Designed to provide a broad overview of the past. Viewed as basic courses for all students interested in the past.

IHS 111 (F)
HISTORY OF WESTERN CIVILIZATION TO 1500 3 credits

A survey of cultural achievements of ancient civilizations of the Mediterranean basin, as well as of the medieval Europe which became part of the heritage of Western or European civilization.

IHS 112 (S)
HISTORY OF WESTERN CIVILIZATION SINCE 1500 3 credits

A survey of European history from Renaissance to modern times. Development of national states and other modern institutions in Europe discussed. Socio-economic changes within the European society considered as a background.

IHS 113-114 (F, S)
AN INTRODUCTION TO THE AFRO-ASIAN WORLDS, I & II 3-6 credits

An examination of the social, economic, political, and cultural institution of Asia, the Moslem world, tropical Africa, and South Africa.

IHS 115 (F)
HISTORY OF THE UNITED STATES TO 1865 3 credits

A survey of the American people from colonial days to the Civil War.

IHS 116 (S)
HISTORY OF THE UNITED STATES SINCE 1865 3 credits

A survey of the American people with particular emphasis upon industrialization, social change, and the growth of the nation as a world power.

SECTION II: CHRONOLOGICAL SURVEYS

Designed to provide a detailed examination of a more limited historical period.

IHS 131 (F)
LATIN AMERICA. THE COLONIAL PERIOD 3 credits

A survey that treats the Inca, Aztec, and Maya cultures, African influences as well as Spanish and Portuguese contributions to the development of Latin America.

IHS 132 (S)
REVOLUTION AND SOCIAL CHANGE IN LATIN AMERICA 3 credits

Revolutionary movements in Latin America from Independence to the present with special emphasis on Castro, Allende, Peron, Zapata, Vargas, and the military dictators.

IHS 135 (F)
EGYPTIAN AND GREEK CIVILIZATIONS 3 credits

A survey that stresses the development of Greek civilization until the death of Alexander the Great.

IHS 136 (S)
THE HELLENISTIC AND ROMAN WORLDS 3 credits

A survey that places a special emphasis upon the Roman Republic and the Empire until 476 A.D.

IHS 138 (F)
THE EARLY MIDDLE AGES 3 credits

A study of the period from 284 A.D. until c. 1000 A.D., emphasizing the synthesis of Roman, Christian, and barbarian cultures.

IHS 139 (S)
THE LATER MIDDLE AGES 3 credits
A study of the period from c. 1000 A.D. until the Renaissance, focusing on the social, economic, intellectual, and political revival of Europe.

IHS 141 (F)
MODERN EUROPE TO 1870: THE AGE OF REVOLUTIONS 3 credits
A survey of Europe centered on the political and social development in Germany and France and the impact of Russia's rise to world power.

IHS 142 (S)
MODERN EUROPE SINCE 1870: THE AGE OF VIOLENCE 3 credits
A detailed survey of Europe in the last hundred years.

IHS 144 (F, S)
TOPICS IN AFRICAN HISTORY 3 credits
An account of the empires, tribes, and development of Africa from earliest times to the present.

IHS 146 (F, S)
EAST ASIA IN THE MODERN WORLD 3 credits
Changes in Modern Asia as a result of the rise of industrialism, urbanism, nationalism, and western influence.

IHS 148 (F, S)
SLAVIC AND EASTERN EUROPEAN HISTORY 3 credits
An examination of the rise of Slavic civilization and the present problems of Eastern Europe.

SECTION III: TOPICS COURSES

Special in-depth analysis of limited themes and topics.

IHS 224 (F, S)
HISTORY OF PHILADELPHIA 3 credits
The historical development of Philadelphia from colonial times to the present, emphasizing the way people lived, the impact of transportation upon city growth, and the changing nature of industrialization. Lectures combined with field trips. Cost of field trips requires an additional fee of \$40.00.

IHS 225 (F, S)
IMPERIALISM IN THE MODERN WORLD 3 credits
A study of the expansion of western nations into the world of Asia and Africa in the 19th century, and the contraction of western influence in these areas in the 20th century.

IHS 228 (F)
WOMEN AND HISTORY 3 credits
The history of women and their changing role and position in Western Europe from the Classical Period to the 20th century. Particular attention to the development of primary institutions such as the family and motherhood.

IHS 229 (S)
THE AMERICAN WOMAN 3 credits
An in-depth analysis of the experience of women in American culture. Special attention to the women's rights movement, women and the law, and the unique challenges facing black women.

IHS 231 (F, S)
AMERICA'S MILITARY PAST 3 credits
The impact of the American military establishment upon American society, and the formation of defense strategy and foreign policy.

HIS 233 (F, S)
THE AMERICAN IMMIGRANT 3 credits
 The history of immigration to America and the ethnic impact upon American institutions.

HIS 237 (F, S)
THE BLACK EXPERIENCE IN AMERICA 3 credits
 The main themes in black history from the African experience to the present with special attention given to slavery, protest movements, civil rights, and black achievement.

HIS 240 (F, S)
TOPICS IN MODERN HISTORY 3 credits
 An examination of selected topics illustrating the political, social, and cultural history of the modern world.

HIS 242 (F, S)
HISTORY OF THE WESTERN MOVEMENT IN AMERICA 3 credits
 A study of the American frontier emphasizing pioneer life, federal Indian policy, and the settlement of the Great Plains and Far West.

HIS 244 (F, S)
BIOGRAPHICAL HISTORY 3 credits
 An investigation of important historical events through the role of individual men and women in history. Stresses guided research.

HIS 247 (F, S)
PRESIDENTIAL POLITICS: ROOSEVELT TO REAGAN 3 credits
 Historical analysis of presidential campaigns from 1900 to 1980, stressing the evolution of political techniques, issues, political parties, and presidential personalities.

HIS 249 (F, S)
DIRECTED READINGS 3 credits
 Readings of certain basic books relating to a specific historical topic, theme, or era; assignments discussed in seminar-tutorial fashion.

SECTION IV:

NATIONAL COURSES

A detailed examination of specific eras in national histories. May be taken for distribution with the approval of the chairman.

HIS 302 (F, S)
THE AMERICAN REVOLUTION 3 credits
 An intensive analysis of concepts and movements generated in the American colonies which resulted in revolution and separation of the British settlements.

HIS 313 (F, S)
JEFFERSONIAN-JACKSONIAN DEMOCRACY 3 credits
 A detailed analysis of the development of the American political system in an increasingly democratic society.

HIS 315 (F, S)
THE CIVIL WAR ERA 3 credits
 A detailed study of the disruption of the Union, stressing the causes, personalities, and human drama of the military events leading to Appomattox.

HIS 325 (F, S)
AMERICA AS A WORLD POWER, 1939-1979 3 credits
 The growth of government involvement at home and abroad since 1939; reading and analysis of original documents.

HIS 329 (F, S)

THE EMERGENCE OF MODERN AMERICA, 1877-1913

3 credits

The nationalization of American life, including the building of the railroad network, the rise of industry, the labor movement, immigration, and urbanization.

HIS 340 (F, S)

MODERN IRELAND

3 credits

An examination of the major political, social, and economic developments in Ireland since the Famine of 1845.

HIS 347 (F, S)

THE UNITED STATES AND EAST ASIA

3 credits

The interrelationship of the United States and the East Asian world in the modern period.

HIS 352 (F, S)

REVOLUTIONARY RUSSIA FROM 1917 TO THE PRESENT

3 credits

A survey of internal conflicts leading to the Revolution and its aftermath.

HIS 358 (F, S)

RECENT BRITAIN EMPIRE TO WELFARE STATE

3 credits

A detailed analysis of the decay of the Empire, the rise of the welfare state, and the impact of both on English life.

SECTION V:**SEMINARS**

Required of all history majors. These courses are designed to provide the student with an exposure to the methodology of historical research. Methodology is offered in the fall semester, research seminars in the spring.

HIS 480-485 (F, S)

SEMINARS

3-6 credits

Methodological and research courses.

INTERNATIONAL STUDIES MINOR

Directed by: DR. JOSHUA BUCH

Designated as a minor available to all students regardless of the major.

Required: 6 Courses

Category I: Three of the following:

- LIT 150
- ENG 312
- ECN 412
- HIS 113, 114, 132, 142, 144, 146, 148*, 225*, 347*, 352*, 358*
- POL 104, 234, 235, 238
- SOC 208, 213, 308
- Foreign Language**: German, French, Russian, Spanish, Italian
- REL 240, 241, 244

Category II: Three of the following courses***:

- ECN 431 or 230
- POL 220
- MGT 381
- FIN/MKT 403

88

*These courses can be taken only upon the approval of the Director.

**It is strongly recommended that students take a foreign language at an appropriate level.

***These courses have some prerequisites; please see course descriptions.

MATHEMATICAL SCIENCES

SAMUEL J. WILEY, Ph.D., *Chair*

Professors: Albright, McCarty

Associate Professors: Hofmann, Longo, O'Neill, Quinn, Wiley

Assistant Professors: Andrioli, Kirsch, Mooney, McHugh, McManus, Pomerance, Turk, Van Rossum

Instructors: Dondero, Elliott, Hoover, Malseed

Lecturer: Scheiter

Required for Major in Mathematical Sciences: 15 courses

There are three major programs: computer science, mathematics, and mathematics-education. The choice of program should depend on career objectives and personal interests. If there are any questions the student should consult with the department chairman or departmental adviser.

Mathematics:

MTH 120, 221, 222, 240, 321, 341; CSC 155, PHY 105-106 or 111-112, and six mathematics courses from Section B.

Computer Science:

MTH 120, 221, 240, CSC 155, 156, 254, 257; four computer science courses chosen from Section D; two approved courses in probability and statistics; and two courses chosen from the following: computer science Section D; MIS 301, 302, 401; MTH 222, 321, 341, 421; PHL 325; PHY 251, 353; computer science Section E (only with approval of chairman).

Mathematics-Education (11 courses):

MTH 120, 221, 222, 240, 321, 330, 341; CSC 155, PHY 105-106 or 111-112, one mathematics course from Section B and courses specified by the Education Department.

Computer Science-Mathematics (Dual major requiring approval of dean and department chairman.):

MTH 120, 221, 222, 240, 321, 341, 410, 411; CSC 155, 156, 254, 257; four computer science courses from Section D; PHY 105-106; and two mathematics courses from Section B.

SECTION A:

MTH 101 (F)

INTERMEDIATE ALGEBRA

3 credits

Algebraic operations, linear and quadratic equations, exponents and radicals, elementary functions, graphs, systems of linear equations. *Note:* Not to be taken to fulfill distribution or major requirements. Students who have other college credits in mathematics must obtain permission of the department chair to enroll in this course.

MTH 111 (F, S)

INTRODUCTION TO CALCULUS

3 credits

Fundamentals of differential calculus, concentrating on algebraic, exponential, and logarithmic functions with applications of calculus to the management and social sciences. Intended for business and liberal arts majors who have had at least two years of high school algebra.

MTH 112 (F, S)

CALCULUS AND FINITE MATHEMATICS

3 credits

Continuation of Mathematics 111. Topics include integral calculus, permutations, combinations, elementary probability, and linear systems and matrices. Prerequisite: MTH 111.

MTH 113 (F, S)

ALGEBRA AND TRIGONOMETRY

4 credits

Sets; the real number system; linear systems; matrices; logarithmic, exponential, and trigonometric functions; theory of equations. A knowledge of elementary trigonometry is assumed.

MTH 120 (F, S)

CALCULUS AND ANALYTIC GEOMETRY I

4 credits

Functions; limits and continuity; differentiation of algebraic functions; maxima and minima; curve tracing; velocity, and acceleration; integration with applications to areas, volumes, surfaces, and work; the fundamental theorem of the calculus. Prerequisite: MTH 113 or equivalent in secondary school mathematics.

MTH 221 (F, S)

CALCULUS AND ANALYTIC GEOMETRY II

4 credits

Differentiation and integration of transcendental functions; techniques of integration; improper integrals; conic sections; polar coordinates, introduction to infinite series. Prerequisite: MTH 120.

MTH 222 (F, S)

CALCULUS AND ANALYTIC GEOMETRY III

4 credits

Vectors; vector functions; partial differentiation, multiple integration; infinite series; Taylor expansions. Prerequisite: MTH 221.

MTH 240 (F, S)

LINEAR ALGEBRA

3 credits

Systems of linear equations; matrices; determinants; real vector spaces; subspaces; span, linear independence; basis and dimension; Gram-Schmidt process; linear transformations; change of basis; eigenvalues and eigenvectors; diagonalization; applications.

MTH 321 (F)
ADVANCED CALCULUS 3 credits
 Calculus of vector valued functions; Green, Gauss, and Stokes theorems; infinite series. Prerequisites: MTH 222, 240, or permission of instructor.

MTH 341 (F)
ABSTRACT ALGEBRA 3 credits
 Sets and mappings; groups, rings, fields, and integral domains; substructures and quotient structures; homomorphisms and isomorphisms; abelian and cyclic groups; symmetric and alternating groups; polynomial rings. Prerequisite: MTH 240 or permission of instructor.

SECTION B:

MTH 322 (S)
DIFFERENTIAL EQUATIONS 3 credits
 Differential equations of the first order; linear differential equations of higher order; Laplace transforms; series solutions; applications to the physical sciences. Prerequisite: MTH 222.

MTH 330 (F 1986, 1988)
MODERN GEOMETRIES 3 credits
 Topics from Euclidean geometry, projective geometry, the classical non-Euclidean geometries; recent developments in geometry. Prerequisite: MTH 240.

MTH 410 (F 1987)
PROBABILITY AND STATISTICS I 3 credits
 Sample spaces and probability measures; combinatorics; conditional probability and independence; random variables; densities and distributions; functions of a random variable; expected value; variance; Chebyshev's inequality; correlation coefficient; laws of large numbers; central limit theorem; applications to random walk. Prerequisite: MTH 222.

MTH 411 (S 1988)
PROBABILITY AND STATISTICS II 3 credits
 Measures of central tendency and variability treated briefly. Random sampling from normal and non-normal populations. Estimation of parameters. Maximum likelihood estimates. Normal, chi-square, Student's t, and F distributions. Correlation and regression. Prerequisite: MTH 410.

MTH 421 (S 1987, 1989)
NUMERICAL ANALYSIS 4 credits
 Basic concepts; interpolation and approximations; summation and finite differences; numerical differentiation and integration; roots of equations. Prerequisites: MTH 222, CSC 155.

MTH 422
PARTIAL DIFFERENTIAL EQUATIONS 3 credits
 One dimensional wave equation, classification of linear second-order partial differential equations in two variables, some properties of elliptic and parabolic equations, separation of variables, Fourier series, Sturm-Liouville theory, Bessel functions. Prerequisite: MTH 322.

MTH 423
REAL VARIABLES 3 credits
 Real number system; Lebesgue measure; Lebesgue integration; differentiation; general measure and integration theory. Prerequisite: MTH 321.

MTH 424 (S 1988)
COMPLEX VARIABLES 3 credits
 Analytic functions; Cauchy-Riemann equations; Cauchy's integral theorem; power series; infinite series; calculus of residues; contour integration; conformal mapping. Prerequisite: MTH 321 or permission of instructor.

MTH 430 (S 1987, 1989)**TOPOLOGY**

3 credits

Topological spaces; subspaces, product spaces, quotient spaces; connectedness; compactness; metric spaces; applications to analysis. Prerequisite: MTH 341 or permission of instructor.

MTH 470, 471, 472, 473**SELECTED TOPICS IN MATHEMATICS**

3 credits

An introductory course to specialized research, concentrating on one particular aspect of mathematics. The subject matter will vary from term to term.

COMPUTER SCIENCE

FOUNDATION COURSES**CSC 151 (F, S)****INTRODUCTION TO COMPUTING WITH APPLICATIONS**

3 credits

Programming in BASIC, with an emphasis on business applications, and computer solution of several data processing problems. Survey of computers, languages, and systems. Data representation; branching, looping; arrays and files. Introduction to use of a spreadsheet package. Recommended for business and liberal arts majors.

CSC 155 (F, S)**FUNDAMENTALS OF COMPUTING**

3 credits

Programming in PASCAL, including data representation, control structures, Boolean and character variables, procedures, functions, arrays. Development of algorithms for problem solution with an emphasis on mathematical-scientific applications. Recommended for science, mathematics, and computer science majors. Prerequisite: one semester of college mathematics (or taken concurrently).

91**SECTION C:****CSC 154 (S)****COBOL IN BUSINESS DATA PROCESSING**

3 credits

Review of computer concepts, problem solving, and program documentation. Study and use of COBOL language in several case studies of commercial data processing applications. Emphasis on structured programming, documentation, problem analysis, file processing, and organization. This is a terminal course designed for business majors. Prerequisite: CSC 151.

CSC 156 (F, S)**ALGORITHMS AND DATA STRUCTURES**

3 credits

Continuation of Computer Science 155. Introduction to elementary data structures in PASCAL: arrays, packed arrays, records, sets, files, stacks, queues, linked lists, binary trees. Sorting and searching algorithms; recursion. Prerequisite: CSC 155.

CSC 254 (F, S)**FILE AND DATA MANAGEMENT SYSTEMS**

3 credits

Introduction to COBOL language. File types and file management. Introduction to sequential, indexed sequential, and random-access file structures. Prerequisite: CSC 156 or permission of instructor.

CSC 257 (F, S)**COMPUTER STRUCTURE AND ASSEMBLY LANGUAGE**

3 credits

Introduction to computer structure and architecture with programming assignments done in assembly language. Computer structure and machine language, assembly language, addressing techniques, macros, file input/output, subroutines, recursion, interrupts, error handling. Prerequisite: CSC 156.

CSC 450, 451 (F, S)
COOPERATIVE EDUCATION

3-6 credits

Prerequisite: permission of department chair.

SECTION D:

CSC 354 (F)

DATA STRUCTURES

3 credits

An in-depth treatment of a variety of data structures and their associated algorithms. Stacks, queues, arrays and their address mapping functions. Linear lists, list operations, sequential and linked storage allocation, and garbage collection. Trees, binary trees, tree operations, and use of trees in sorting and searching. Multi-linked structures. Dynamic storage allocation; files and file structures; hash codes and comparison of search methods. Prerequisite: CSC 156.

CSC 355 (F)

DISCRETE STRUCTURES

3 credits

Review of set algebra including mappings and relations; algebraic structures including semigroups and groups; elements of the theory of directed and undirected graphs; Boolean algebra and propositional logic; applications of these structures to various areas of computer science. Prerequisites: CSC 156, MTH 240.

CSC 356 (S)

PROGRAMMING LANGUAGES

3 credits

Formal definition of programming languages including specification of syntax and semantics; simple statements including precedence, infix, prefix, and postfix notation; global properties of algorithmic languages including scope of declarations, storage allocation, binding, and subprograms; list processing, string manipulation, data description, and simulation languages; run-time representation of programs and data structures. Prerequisites: CSC 254, 257.

CSC 357 (F)

ASSEMBLERS, LOADERS AND COMPILERS

3 credits

Macros and their use. Structure and function of assemblers, linking loaders, and compilers. Program subroutine linkage, parameter passing and binding. Syntax graphs and parsers. Students will design and program several examples. Prerequisite: CSC 257.

CSC 358 (S)

COMPUTER ARCHITECTURE

3 credits

General computer structure. Basic logic design: gates, flip-flops, registers, data and address buses. Coding: encoders, decoders, converters. Architecture: communication among large scale computer components, hardware implementation of instructions. Study of a simple computer system. Prerequisite: CSC 257 or concurrently.

CSC 454 (F)

ADVANCED DATA PROCESSING AND DATA BASE MANAGEMENT

3 credits

Data base system architecture — data structures, storage structures, and data languages. Alternate approaches to data base management systems — relational approach, hierarchical approach, network approach. Data base security and integrity. Query processing. Prerequisite: CSC 254.

CSC 455 (S)

FORMAL LANGUAGES AND AUTOMATA THEORY

3 credits

Formal languages and their description by grammars and automata: regular, context-free, context sensitive, and unrestricted languages. Deterministic and non-deterministic machines. Finite state machines and their applications. Theory of translation, parsing, LL(K), LR(K) and precedence grammars. Prerequisite: CSC 355 or MTH 341.

CSC 457 (S)

OPERATING SYSTEMS

3 credits

Principles and concepts of process and resource management in operating systems. I/O programming, interrupt mechanism; memory management; processor management, scheduler, traffic controller; device management and information management and file systems. Concepts will be illustrated in the context of modern computers. Prerequisite: CSC 357.

SECTION E:

CSC 470, 471, 472, 473

SELECTED TOPICS IN COMPUTER SCIENCE

3 credits

An introductory course to specialized research in computers and computing, concentrating on one particular aspect of computer science. The subject matter will vary from term to term.

MILITARY SCIENCE

L.T. COLONEL GEORGE H. KELLENBENZ, M.A.

Professor of Military Science

Assistant Professors: Russell, Manning

ROTC

Enrollment in 100 and 200 level Military Science courses is closed to seniors and open only to juniors with permission of the department chairperson.

MSC 101 (F, S)

MILITARY SCIENCE—YEAR 1, THE HISTORY OF MILITARY ART

1 credit

The art of war from ancient times to the present. A study of military operations and the evolution of military theory and institutions. One hour leadership laboratory.

MSC 102 (S)

MILITARY SCIENCE—YEAR 1, AMERICAN MILITARY HISTORY

2 credits

Examines the how and why of American involvement in wars from the Revolution to Vietnam. One hour leadership laboratory.

MSC 201 (F, S)

MILITARY SCIENCE—YEAR 2, MILITARY GEOGRAPHY

2 credits

A study of tactical military geography to include a study map reading and geomorphology. Class discusses and practices the essence of orienteering. One hour leadership laboratory.

MSC 202 (S)

MILITARY SCIENCE—YEAR 2, MILITARY GEOGRAPHY (Continued)

1 credit

The estimate of national power and the role of geopolitics examined in the framework of American military operations and the national security structure of the U.S. One hour leadership laboratory.

MSC 301 (F)

ADVANCED MILITARY SCIENCE—YEAR 3, MILITARY LEADERSHIP

3 credits

Introductory course in leadership examining the principles of leadership. Includes a case study of the junior army leader, his roles and responsibilities. One hour leadership laboratory mandatory. Prerequisite: Permission of department chairperson.

MSC 302 (S)

ADVANCED MILITARY SCIENCE—YEAR 3, MILITARY LEADERSHIP (Continued)

3 credits

Analyzes the role of the leader by examining small unit operations of an infantry platoon. After studying the theory of operations, students are placed in leadership positions and given situations to analyze. One hour leadership laboratory mandatory. Prerequisite: Permission of department chairperson.

MSC 401 (F)

ADVANCED MILITARY SCIENCE—YEAR 4, PRINCIPLES OF MILITARY MANAGEMENT

3 credits

Analyzes the principles of management by use of case studies. Stresses the art of communication for success in management. One hour leadership laboratory mandatory. Prerequisite: Permission of department chairperson.

MSC 402 (S)

ADVANCED MILITARY SCIENCE—YEAR 4, PRINCIPLES OF MILITARY MANAGEMENT

(Continued)

3 credits

Management by the junior officer. Includes command and staff responsibilities and relationships, ethics, military law, logistics, maintenance, and administration. One hour leadership laboratory mandatory. Prerequisite: Permission of department chairperson.

NURSING

GLORIA F. DONNELLY, R.N., M.S.N., Ph.D. *Chair*
(See Evening Division Bulletin for listing of courses.)

PHILOSOPHY

MICHAEL KERLIN, Ph.D., *Chair*
Professors: Kerlin, Mihalich
Associate Professors: Dallery, Fitzgerald,
Lashchuk, Strosser, Sullivan
Assistant Professors: Fallon, Macoretta, Phillips

FOUNDATION COURSES

PHIL 151

CONCEPTS OF HUMANITY

3 credits

A study of the concepts of humanity which underlie and affect thought, values, and actions in personal life and society.

PHIL 152

MORAL INQUIRY AND MORAL CHOICE

3 credits

A study of the major moral theories related to how human beings do and ought to make moral decisions. Applications of these moral frameworks to contemporary moral issues will be an integral part of the course.

Required for Major in Philosophy: 10 courses

- PHL 207 or 325; 311, 326, 327, 328, 416, 480.
- Any three courses above the 100 level.

PHIL 201 (F, S)

ART AND CREATIVITY (AESTHETICS)

3 credits

A consideration of the philosophical basis for making judgments about the art experience. Designed to acquaint the student with the major features and thinkers of the classical, romantic, and modern periods.

PHIL 202 (F)

EASTERN PHILOSOPHY

3 credits

A study of the primary streams of Hindu and Chinese thought as they originated and as they attract western thinkers of today. Jainism, Samkhya-Yoga, Vedanta, Early Buddhism, Transcendental Buddhism, Confucianism, Taoism, forms of Chinese Buddhism, and Zen will be given most attention.

PHIL 203 (S)

AMERICAN PHILOSOPHY

3 credits

Broadly conceived as American intellectual history, the history of ideas that shape the American angle of vision: from the Puritan's errand into the wilderness to the birth of the Great Yankee, from democracy as the "last, best hope of Earth" to William James' courage to believe.

PHIL 204 (S)

RUSSIAN AND EAST EUROPEAN PHILOSOPHY

3 credits

A study of such thinkers as Skovoroda, Tolstoy, Lenin, Stalin, Berdyaev and others. The relationship of Soviet Marxism and dialectical materialism to ethics, art, and science; human rights, national rights, and the problems of minorities.

- PHIL 205 (F)**
PHILOSOPHY OF COMMUNISM 3 credits
 An historical and systematic study of the writings of Karl Marx emphasizing the Hegelian origins of his critique of capitalism, the problem of ideology, the Marxian view of social science, and the development of Marxism as theory and practice at the hands of Engels, Lenin, and Stalin.
- PHIL 206 (F)**
SOCIAL PHILOSOPHY 3 credits
 Introduces the student to modern and traditional views concerning the origin of society and of government, and the foundation of political obligation. Topics considered will be in the state of nature, the social compact, natural law, property.
- PHIL 207 (F)**
CLASSICAL LOGIC 3 credits
 A study of traditional, or Aristotelian, logic stressing the major forms of inference found in ordinary discourse. It includes a consideration of the material or non-formal fallacies in deductive and inductive reasoning.
- PHIL 208 (S)**
THE PHILOSOPHY OF HISTORY 3 credits
 A study of some of the principal viewpoints about historical knowledge and historical development. Problems discussed include: subjectivity and objectivity, causality and explanation, perspective and relativity in history. The great schemes of historical interpretation also considered.
- PHIL 209 (S)**
THE PHILOSOPHY OF THOMAS AQUINAS 3 credits
 A study of the philosophical problems which arose in the Middle Ages and of the solutions proposed by Thomas Aquinas. Texts principally from *Essence and Existence* and the *Summa Theologiae*.
- PHIL 210 (F, S)**
EXISTENTIALISM 3 credits
 An approach to contemporary phenomenology and existentialism through philosophers such as Husserl, Heidegger, Sartre, and Merleau-Ponty. Topics include: the phenomenological method, human existence as process, meaning vs. absurdity, and the overcoming of alienation.
- PHIL 212 (S)**
ETHICS. THEORIES AND ISSUES 3 credits
 Intended to stimulate and help the student to do clear, precise, philosophical thinking about ethical questions through the reading and discussion of some of the primary philosophical texts that influenced the development of western moral thought; a more specialized course than PHIL 162. *Recommended for all philosophy majors.*
- PHIL 213 (F)**
PHILOSOPHY OF SPORTS 3 credits
 A philosophical investigation of sports and athletics and their significance as a basic human experience. Topics include sports and the achievement of human excellence; sports as a basis of social and cultural structure; and the analysis of sports in philosophical movements such as Marxism and existentialism.
- PHIL 221 (S)**
BUSINESS ETHICS 3 credits
 Business practices evaluated in the light of ethical principles. Special concern given to moral dimensions of management decision making and to the ethical problems of consumerism and government control.

PHIL 222 (F)**LOVE AND HUMAN SEXUALITY**

3 credits

A philosophical exploration of human love and sexuality. Attention will be given to the connection between the philosophical approach and that of other disciplines. Works by authors such as Plato, Aristotle, Thomas Aquinas, Santayana, Ortega y Gasset and Sartre will be read.

PHIL 223 (S)**PERSPECTIVES ON DEATH**

3 credits

A study of various philosophical strategies for coming to terms with human death. Western and non-Western sources will be used. Philosophical views on death applied to problems such as aging and dying, suicide and euthanasia, the medical conquest of death, and definitions of death. Of particular value for students choosing careers in the health professions.

PHIL 311 (F)**PROBLEMS OF KNOWLEDGE**

3 credits

A systematic investigation into the sources, limits, and nature of knowledge. Topics include: meaning and its relation to truth of statements; nature and criteria of truth, role of observation, perspective and conceptualization in the justification of knowledge claims. *Required of all philosophy majors.*

PHIL 323 (S)**THE PHILOSOPHY OF SCIENCE**

3 credits

The impact of scientific revolutions on observations and rationality in science studied through the writings of Kuhn and Feyerabend and others. Critical examinations of such concepts in science as scientific method, induction, verification, and falsification.

PHIL 325 (S)**SYMBOLIC LOGIC**

3 credits

A study of the following aspects of symbolic logic: truth functional logic, quantificational logic, logic of relations, proofs of adequacy for the system used, undecidability and incompleteness, the relationship between modern logic and Aristotelian logic.

PHIL 326 (F)**HISTORY OF WESTERN PHILOSOPHY: ANCIENT PERIOD**

3 credits

Philosophy in ancient Greece and Rome, with concentration on Plato and Aristotle. *Required of all philosophy majors; open to others.*

PHIL 327 (S)**HISTORY OF WESTERN PHILOSOPHY: MEDIEVAL AND
RENAISSANCE PERIODS**

3 credits

From St. Augustine through the age of scholasticism to the Renaissance. *Required of all philosophy majors; open to others.*

PHIL 328 (F)**HISTORY OF WESTERN PHILOSOPHY: MODERN PERIOD**

3 credits

From Hobbes and Descartes to the Enlightenment, with concentration on the rationalists, empiricists, and Kant. *Required of all philosophy majors; open to others.*

PHIL 416 (F)**TUTORIAL IN PHILOSOPHY**

3 credits

Introduces the student to the critical reading of a major philosophical text. Text will be studied in common, and critical papers will be written on the text studied. *Required of philosophy majors; open to others with approval of chairman.*

PHIL 470**SPECIAL TOPICS**

3 credits

PHIL 480 (S)
SEMINAR

3 credits

An investigation of a philosophical theme chosen each year by the department. Students will write a paper on the theme and present their work to the seminar. The seminar has for its purpose the integration of previous philosophical study. *Required of philosophy majors; open to others with approval of chairman.*

PHYSICS

MARK GUTTMAN, Ph.D., *Chair*
Associate Professors: Guttman, Longo, Simmons
Assistant Professor: Strieb

Required for Major in Physics: 14 courses

- PHY 111-112, 113, 211, 212, 213, 311, 313, 411, 412
- PHY 214 and 224 or 351 and 352
- MTH 120, 221

PHY 101 (F)

FROM THE ATOM UP

3 credits

For science and non-science majors. The concepts and models of classical dynamics and astronomy culminating in the Newtonian world view. Faraday-Maxwell electrodynamics and the special theory of relativity. Concepts rather than mathematics stressed. No prerequisites.

PHY 102

FROM THE ATOM DOWN

3 credits

For science and non-science majors. General relativity and cosmology. The conservation laws and their relation to elementary particle physics. The role of chance in physics from thermodynamics to the quantum revolution. Matter theory. Physics and life. Concepts rather than mathematics stressed.

PHY 105-106

GENERAL PHYSICS

4 credits

Vectors, elementary mechanics of point particles and rigid bodies, gravitation, simple harmonic motion and waves. Electromagnetism, D.C. and A.C. circuits and elementary optics. Prerequisite: MTH 120. Three hours lecture, two hours laboratory; two terms.

PHY 111-112

GENERAL PHYSICS I & II

4 credits

For freshmen physics majors and qualified students in other disciplines. An introduction to the ideas and techniques of classical physics. First semester: classical mechanics of particles and rigid bodies. Second semester: electricity and magnetism, thermal physics. Relation of these areas to current research is stressed. Prerequisite: MTH 120 and 221 concurrently (or equivalent). Three hours lecture, one hour problem session, two hours laboratory; two terms.

PHY 113 (F)

GENERAL PHYSICS III

3 credits

Includes topics relative to wave phenomena and modern physics. Prerequisites: PHY 105-106 or 111-112; MTH 221 concurrently; or permission of instructor.

PHY 120

SCIENCE, TECHNOLOGY, AND SOCIETY

3 credits

A study of some interactions between science, technology, and society. Topics include: the scientific community; history of technology; weapons; science, technology, and the arts; technology and change.

PHY 211 (F)**MATHEMATICAL PHYSICS I**

3 credits

Infinite series, Taylor expansions, partial differentiation, multiple integration, systems of linear equations, differential and integral vector analysis, linear differential equations, Fourier series. Prerequisite: MTH 221.

PHY 212 (S)**MATHEMATICAL PHYSICS II**

3 credits

Partial differential equations, special functions, boundary value problems, complex variables, Fourier and Laplace transforms, calculus of variations, linear algebra and eigenvalue problems. Prerequisite: PHY 211 or permission of instructor.

PHY 213 (S)**THERMAL PHYSICS**

3 credits

Topics treated include the first, second, and third law of thermodynamics; kinetic theory of gases; transport phenomena; Maxwell-Boltzmann statistics; Bose-Einstein and Fermi-Dirac statistics. Three hours lecture. Prerequisite: PHY 105-106.

PHY 214 (F)**ELECTRONICS I**

3 credits

Circuit theory involving resistors, capacitors, inductors, transformers; diodes, bipolar and field effect transistors, power supplies. Familiarization with basic electronic instruments such as oscilloscope, function generator and impedance bridge. Prerequisite: None, but PHY 105-106 recommended. Laboratory required.

PHY 220 (S)**TOPICS IN BIOPHYSICS**

3 credits

Mechanics: loading of muscles and bones, fracturing of bones, energy considerations of insect flight. Optics: mirrors, lenses, aberrations, microscopes, physics of the eye. Fluids: pressure and flow in tubes, viscosity, diffusion applied to membranes. Prerequisites: PHY 105-106 and BIO 151-152, or permission of the instructor.

PHY 224 (S)**ELECTRONICS II**

3 credits

Three terminal devices, transistors and tubes, small signal analysis, DC biasing, multi-stage operation, feedback, special purpose semiconductor devices, operational amplifiers. Prerequisite: PHY 214 Laboratory required.

PHY 251**INTRODUCTION TO DIGITAL COMPUTER ELECTRONICS**

3 credits

Review of Ohm's Law, diodes and transistors (treated only as switching devices), Boolean algebra, 7400 Integrated circuit series, counters, adders, general registers and basic computer hardware. Prerequisite: none, but PHY 105-106 recommended. Laboratory required.

PHY 311-312**ELECTRICITY AND MAGNETISM**

3 credits

Electrostatics, magnetostatics, dielectrics and magnetic materials, Maxwell's equations, electromagnetic waves, electromagnetic radiation. Prerequisite: PHY 211 or equivalent.

PHY 313 (S)**STATES, WAVES, AND PHOTONS**

3 credits

A modern introduction to optics encompassing matrix representations of optical systems and polarization states of light; the Jones calculus, the Mueller calculus and the Stokes representation; states of light as eigenstates of operators, expectation values, the bracket product and probability amplitudes; an approach to scalar diffraction through Green's theorem and Fourier transforms; the electromagnetic field and its quantization. Prerequisite: PHY 311.

PHY 321 (S)**INTRODUCTION TO ASTROPHYSICS**

3 credits

Methods for determining the basic properties of stars, such as temperatures, masses, and radii; stellar energy and structure.

PHY 322 (S)**PLANETARY PHYSICS**

3 credits

The solar system and its origins; interiors and atmospheres of terrestrial and giant planets, interplanetary matter and comets. Prerequisite: MTH 221.

PHY 351**ADVANCED LABORATORY I**

3 credits

Laboratory work with close faculty guidance, but emphasizing independent work and a professional approach. A selection of experiments from mechanics, acoustics, electricity and magnetism, atomic and nuclear physics, experimental methods and instrumentation, error and data analysis. Prerequisite: PHY 113.

PHY 352**ADVANCED LABORATORY II**

3 credits

Similar in purpose to PHY 351 but with material selected which will not duplicate the student's previous experience. Prerequisite: PHY 113.

PHY 353 (S)**INTRODUCTION TO MICROPROCESSORS**

3 credits

Hardware and software of popular microprocessor chips will be dealt with. E.g. 8080. CPU's, I/O, memories and A/D will be some of the topics treated. Microprocessors available to conduct required experiments. Prerequisite: PHY 251. Laboratory required.

PHY 411-421**MECHANICS**

3 credits

Topics include: the single particle and systems of particles in one, two, and three dimensions; rigid body motion; moving coordinates systems; the mechanics of continuous media; Lagrangian and Hamiltonian formulations; tensor methods; special relativity. Prerequisites: General Physics, MTH 222, PHY 211 or permission of the instructor.

PHY 412**QUANTUM PHYSICS I**

3 credits

The Rödinger equation and its application to one dimensional systems and the hydrogen atom. Heisenberg's uncertainty relations, perturbation theory for degenerate and nondegenerate states. Prerequisite: PHY 211 or equivalent.

PHY 422**QUANTUM PHYSICS II**

3 credits

Quantizing the electromagnetic field and applications of quantum mechanics to problems in atomic, nuclear and solid state physics. Prerequisite: PHY 412.

PHY 470**SPECIAL TOPICS**

3 credits

As interests indicate, special programs may be introduced into the curriculum, discussing specialized areas for group or independent study.

PHY 480-481**RESEARCH**

1-2 credits

Individual studies and research, presentation of papers, familiarization with the literature.

POLITICAL SCIENCE

ROBERT J. COURTNEY, Ph.D., Chair

Professors: Courtney, Dillon

Associate Professor: Nathans

Assistant Professors: Hill, McGovern

FOUNDATION COURSE

POL 150 (F, S)

AMERICAN FEDERAL GOVERNMENT 3 credits

An examination of the organization and functions of the federal government of the United States; a study of the separation of powers and relations with states. *Required of all political science majors.*

All political science courses except 251-252 and 480-481 are open to all students.

Required for Major in Political Science: 15 courses

- POL 104, 150, 220, 222, 480, 481
- Seven political science electives
- ECN 150-201

POL 104 (S, F)

WESTERN EUROPEAN POLITICS

3 credits

A political analysis of the constitutional principles and governmental organizations of England, France, and Germany. *Required of all political science majors.*

POL 220 (F, S)

INTERNATIONAL RELATIONS

3 credits

An analysis of the basic patterns and major factors underlying international politics. Consideration of current international problems. *Required of all political science majors.*

POL 222 (S)

SURVEY OF POLITICAL THOUGHT

3 credits

An analysis of the major political writers from Plato to the present. Emphasis on each author's concept of the state, its function and end, and his solution to the problem of the reconciliation of the common good with individual freedom. *Required of all political science majors.*

POL 230 (F 1987)

POLITICAL GEOGRAPHY

3 credits

A survey of the geographic factors influencing the real and potential economic and political development of nations.

POL 231 (F 1987)

U.S. FOREIGN RELATIONS I

3 credits

A study of the diplomatic and military instruments of American foreign relations, the formal and informal powers and processes by which policy is made, and the basic patterns of national interest and policy prior to World War II.

POL 232 (S 1988)

U.S. FOREIGN RELATIONS II

3 credits

An analysis of the main problems of American foreign relations from 1945 to the present.

- POL 233 (F 1986)**
THE POLITICS OF THE SOVIET UNION 3 credits
 An examination of the major elements that determine the nature of Soviet polity, including the role of the Communist Party, the relationship between the party and government, the growth of dissent within the Soviet Union, and future prospects for Soviet society.
- POL 235 (F 1987)**
LATIN AMERICAN POLITICS 3 credits
 An examination of the common institutions and political practices that characterize Latin American governments. Mexico examined as an illustration of these institutions and practices.
- POL 238 (F 1986)**
THE MIDDLE EAST AND THE WORLD. 3 credits
 A study of modern Middle Eastern politics, with emphasis on the origins, issues and present stage of the Arab-Israeli conflict; an analysis of Western and Soviet foreign policies in the area, with emphasis on America's mideast diplomacy.
- POL 240 (S 1988)**
AMERICAN STATE GOVERNMENT 3 credits
 A study of the state as a partner in the federal system; the states' constitutional development; and principles underlying state governmental organization, reorganization, and functions.
- POL 241 (S 1987)**
MUNICIPAL GOVERNMENT 3 credits
 A study of the organization and functions of government at the municipal level and an analysis of trends and types of municipal governments.
- POL 242 (S)**
AMERICAN POLITICAL PARTIES 3 credits
 A view of the political problems of the United States as revealed in the major and minor political parties that have arisen during the country's history.
- POL 243 (F)**
AMERICAN CONSTITUTIONAL LAW I 3 credits
 A case study approach utilizing Supreme Court decisions provides an analysis of the governmental structure of the United States. Principal topics include judicial review, separation of powers, federalism, extent and limit of Congressional and Presidential authority, the commerce and fiscal clauses of the Constitution. (Required of all Public Administration majors).
- POL 244 (S 1988)**
THE LEGISLATIVE PROCESS: THE U.S. CONGRESS 3 credits
 The role of Congress in the legislative process; its internal operations and external political relations; especially with the President. Comparison of the characteristics of Congress with those of state legislatures and European legislative bodies.
- POL 245 (F 1989)**
MODERN POLITICAL IDEOLOGIES 3 credits
 The interrelation of theory and practice and the development of "ideological" thinking explored through an analysis of the conceptions of man, history, state, and revolution espoused by Marxism-Leninism, Fascism-National Socialism, and Anarchism. Readings from original sources: Marx, Lenin, Mussolini, Hitler, Sorel, Camus, and Guevara.
- POL 246 (S)**
AMERICAN CONSTITUTIONAL LAW II 3 credits
 A case study approach utilizing Supreme Court decision provides an analysis of the individual's relationship to the government under our Constitution. Principal topics include rights under the early Constitution, the incorporating process, First Amendment rights, procedural rights of the accused, equal protection and political rights. (Strongly recommended: Constitutional Law I).

POL 247 (S 1987)**BUREAUCRATIC POLITICS AND ADMINISTRATION**

3 credits

Analysis of bureaucracy within the national and urban context; internal characteristics and external political relationships with executives and legislatures, including unionization of bureaucratic personnel, budgetary relationships, innovation and the relationships of bureaucracy with clientele groups and the general public.

POL 251 (F, S)**POLITICAL SCIENCE INTERSHIP I**

Foundation for all other social work courses in that it provides a basic framework of analysis for practice and policy courses. Provides a basic understanding of fundamental human needs, of populations at risk in this society, and of the social service delivery system.

SWK 210 (S)

SEX, POWER AND SOCIALIZATION (Identical with SOC 210)

3 credits

SWK 270, 370, 470 (F, S)

SPECIAL TOPICS IN SOCIAL WORK

3 credits

Designed to address contemporary issues in social policy and social work practice. Topics: gerontology, mental health, child welfare, family violence, and others. Students are advised to check with the Program Director about current offerings and about whether course meets distribution requirement.

SWK 361 (F)

SOCIAL WORK THEORY AND PRACTICE I

3 credits

The generalist framework of social work practice. A range of generalist techniques studied as preparation for practice with individuals, groups and other systems. Principles of interviewing and developmental helping skills. Roleplaying, case studies, and videotaping will be used. Instruction and practice in social welfare and related agencies which provide a range of generalist services. Structured agency supervision provides opportunity for students to develop skills and recognize the effect their own intervention has upon clients' lives. Students spend the equivalent of one full day per week in field instruction. Prerequisite: SWK 202 or permission of instructor.

SWK 362 (S)

SOCIAL WORK THEORY AND PRACTICE II

3 credits

The Task Centered Model applied to micro and macro level practice situations. Concepts from the biological, social and behavioral sciences examined to provide an informed use of the model in a range of agencies which provide generalist services. Structured agency supervision provides opportunity for students to develop skills and recognize the effect their own intervention has upon clients' lives. Students spend the equivalent of one full day per week in field instruction. Prerequisite: SWK 361.

SWK 363 (F)

SOCIAL POLICY I

3 credits

An historical look at the development of the welfare state in the United States. Particular attention to traditions, laws, and court decisions concerning poor people, racial minorities, immigrants, and women. Identical with SOC 363.

SWK 361 (S)**SOCIAL POLICY II**

3 credits

Explores contemporary social policies in the U.S. Topics selected from the following: health, aging, mental health, child welfare, family, welfare, and educational policy. Domestic and international alternatives to current policies discussed. Advocacy and lobbying processes are practiced. Identical with SOC 364.

SWK 461-462 (F, S)**SEMINAR IN SOCIAL WORK I AND II**

3-6 credits

Building upon the knowledge, attitudes, and skills developed in the junior-level skills and methodology courses, these senior seminars deepen students' understanding of generalist intervention strategies. While focusing on both micro and macro level practice, these courses will be organized around social work processes: assessment, planning, intervention and evaluation. Students will be given an opportunity to evaluate their own practice through empirical testing.

SWK 463-464 (F, S)**FIELD INSTRUCTION I AND II**

6-12 credits

Instruction in advanced practice skills. Students spend two full days per week in educationally-directed field placements. To be taken concurrently with SWK 461-462.

SWK 465 (F)**PROFESSIONAL CONSIDERATIONS IN SOCIAL WORK**

3 credits

Questions of values and ethics underlying professional social work practice are explored through lectures, analysis of practice, or participation at professional meetings. Philosophical, political, and sociological perspectives will provide the framework for analysis.

Business Administration

120

The School of Business Administration offers a four-year undergraduate program for men and women leading to the Bachelor of Science degree. The program of studies is designed to expose the student both to a fundamental body of knowledge and standard analytic, communications, and decision-making skills as well as to current developments in business theory and practice. To ensure that these are contemporaneous, the program is regularly evaluated in terms of: standards established by the American Assembly of Collegiate Schools and Business; standards and norms endorsed by various professional bodies such as the American Institute of Certified Public Accountants, the American Management Association and the American Marketing Association; and an ongoing dialogue with managers and business professionals in the Delaware Valley. The program prepares graduates to move from the University into management/professional positions in business, government and nonprofit organizations or into graduate study.

Course requirements and electives are structured to provide: (1) a solid foundation in the arts and sciences as background for professional study in business administration; (2) a business core consisting of study in the several areas of business administration and in analytical methods and techniques; and (3) an opportunity to concentrate in depth in a professional area as a basis for future career development. The foundation and core studies provide the student with an understanding of self, the humanistic and philosophic aspects of man, the traditions of Judeo/Christian thought, and the social, mathematical, and computing sciences relevant to business practice. The business core and professional studies provide a broad understanding of the theory and practice of administration in large and small organizations.

DEGREE PROGRAM

The program leading to a Bachelor of Science degree in Business Administration consists of 120 credits (minimum 38 courses), about half of which may be taken in business and economics. The liberal arts and science studies tend to be concentrated in the first two years and the professional studies in the last two years. In the junior year a student begins to specialize in professional studies, which include:

Accounting	Marketing
Business Administration	Operations Management
Finance	Organizational Behavior
Health Care Administration	Personnel & Labor Relations
International Studies	Quantitative Analysis
Management Information Systems	Risk Management & Insurance

In addition to the program of academic studies, students are encouraged to be in contact with business practitioners and organizations. This dialogue is achieved through a variety of channels. Students are encouraged to undertake at least one co-op experience. The Executive-in-Residence coordinates the campus appearance of a significant number of corporate speakers during the course of the academic year. The sixteen business executives on the Business Advisory Board provide a valuable resource for both students and faculty to draw upon. Finally, students are encouraged to begin formulating and testing career plans through the Career Planning and Placement Office at an early point in their university years.

THE CORE CURRICULUM

The Core Curriculum provides you with an opportunity to build a strong foundation for the future. It encourages you to work out a system of values rooted in the best thinking of the great minds of the past and present.

Whatever your eventual major, your core courses will have allowed you to acquire a basic body of knowledge and habits of thinking that are independent of your career interests. The Core Curriculum at La Salle has been recently revised after several years of study and debate on the part of students, faculty, and administrators. This new curriculum will give you a real advantage as you attempt to build your life and your career after graduation. It will help you *learn how to learn* by giving you experience in researching information, understanding relationships, and communicating effectively with others.

While the Core allows you some freedom of choice, it includes guidelines which should provide coherence in your college education. The Core Curriculum prepares you to adapt to the ever-changing world by exposing you to a well-thought-out plan aimed at encouraging four years of intellectual and personal growth. The Core Curriculum consists of three parts: Foundation, Core I, and Core II.

Foundation Courses (7-9 courses, normally completed by end of sophomore year)

These courses are most directly related to the liberal education approach that is basic to La Salle's aims and traditions. Depending upon your previous preparation, you will take foundation courses in writing, literature, history, computer science, philosophy, science, religion, and social science.¹ The writing and computer science courses are intended to give you the tools you need; the others will acquaint you with some of the best that has been written or thought in each field. The University may waive a writing course or a computer science course if your background so warrants.

Core I Courses³ (6 courses, normally completed by end of junior year) *Foundation courses may not satisfy this requirement.*

These courses are an opportunity to build upon the foundations you have in place. In Core I A, you take *three* courses in Religion and Philosophy (two in one subject and one in the other).

In Core I B, you also take a sequence of three courses in **one** of these:

- History
- Fine Arts (Art or Music)
- Foreign Languages (Classical languages, French, German, Italian, Russian, Spanish)
- Literature

Each sequence has been planned by the individual department to provide growth in the knowledge and skills of that subject.

Core II Courses³ (2 courses from a subject or combination of subjects listed below. May not be in your major subject or in the subject you chose for your Core I sequence.)

- Fine Arts (Art or Music)
- Foreign Language (Must be in same language.)
- History
- Literature
- Social Science (Economics, psychology, political science, sociology)²

¹Business majors take ECN 150 as the Social Science Foundation Course.

²Business majors take ECN 201 as one of the Core 2 requirements.

³MTH 111 may substitute for one of the Core 1 or Core 2 courses.

BUSINESS CORE

The Business Core is intended to introduce the student to the four functional areas in business—accounting, finance, management and marketing—as well as to commonly used analytical concepts—economic and quantitative analysis and law. The following courses constitute the core:

ACC 101, 102	MGT 201, 300
ECN 302	MKT 201
FIN 201, 300	QNT 213
LAW 201	

PROFESSIONAL STUDIES

These courses provide an intensive learning experience in one facet of business and serve as a basis for future career development. Professional options are offered in:

Accounting	Operations Management
Finance	Organizational Behavior
Management Information Systems	Personnel and Labor Relations
Marketing	Quantitative Analysis

The professional option ordinarily consists of 4 courses in one functional area beyond those courses required in the business core. The accounting option, however, requires 8 courses. This is intended to help the student to better prepare either to pass the Certified Public Accounting (CPA) examinations or to embark on an accounting career in industry. You may choose your professional option upon matriculation or at any time during the first two years of study.

Students who wish to do so have the option to pursue a dual specialization or a single specialization and a minor. In either case you must obtain the permission of both Chairpersons.

FREE ELECTIVES

A student may choose to concentrate free electives in a particular field or may use these electives to diversify his background or broaden his interests. To achieve a balance between liberal arts and professional studies, the school recommends that a student take no more than 12 credits as electives in business administration or economics. Quantitative Analysis 214 is recommended for students intending to apply to graduate school.
